**THREE FED ON DOLLAR  
PER DAY, YET HE SUES**  
How Mrs. Geraldine Remick performed a modern miracle and fed three persons on \$1 a day, including Sunday dinners, was disclosed in Superior Judge Schauer's decision at an alimony hearing yesterday. Mrs. Remick, who is suing for a divorce, asserting cruelty, was replying to the charge that she allowed her only \$7 a week. Mrs. Remick asked for alimony but Judge Schauer held she is able-bodied and should support herself. The court ordered Remick to pay \$3 a month for the support of her child.

**Will Rogers  
Remarks:**  
SANTA MONICA, Sept. 12. (To the Editor of the Times:.) See where they are forming in Europe a new organization called "the United States of Europe." Nobody knows just what it is or what its aims are, but we ought to be for it if only for one reason, and that is it's the first thing being formed since the war that we haven't been asked to go over and join. If it's an economic boycott against our high Republican tariff I don't see why the Democrats wouldn't be allowed to join it. I guess this epidemic of forming clubs and things that we have just so disastrously passed through is just hitting Europe.

Resolution  
United Latin America on  
Pan-European Plan  
Now Proposed

Copyright, 1929, by Chicago Tribune  
GENEVA, Sept. 12. (Exclusive)—Under the Assembly executes provisions of the covenant for examining the advisability of revising the League of Nations. The crisis arises today when the committee, determined to protect the inviolability of the treaty of 1919, decided to shelve the resolution of Dr. Chao Chu Wu, Chinese Ambassador to Washington, and chief Chinese delegate here, for alterations in treaties imposed by western powers stripping China of all sovereign rights and turning control of China's internal affairs. Dr. Wu warned the League authorities that the new China will withdraw from the League unless it gets justice and cited Prime Minister Ramsay MacDonald's speech demanding recognition of the rights of the Chinese people. Faced with the threat of losing China, the League has referred the question back to the committee to seek a compromise of the solution which will permit China to obtain a revision of the treaties shackling it, but at the same time prevent Germany, Austria, Hungary and Bulgaria from reopening the League.

Six Coast Guard Stations  
and Planes Seek Trace  
of Sand Carrier

CHICAGO, Sept. 12. (P)—Coast Guard boats from six stations on Lake Michigan tonight put out, manned by full emergency crews, to seek the missing sand carrier Andaste, which was sixty hours overdue in Chicago at 8 o'clock with her crew of twenty-nine and a cargo of 1900 tons of sand out of Grand Haven, Mich.  
Crews of stations at Kenosha, Grand Haven and Michigan City pooled their facilities with three Chicago crews in searching the 210 miles of wind-swept Lake Michigan between this port and Grand Haven.  
PLANES SEEK WRECK  
Aircraft scouted the lake for traces of the ship or of any wreckage which Tuesday night's storm may have washed up on the sandy Indiana dunes. No trace of the ship was reported.  
A. E. M. Schneider, vice-president of the Andaste Steamship Company at Cleveland, owners of the vessel, said he felt the ship was lost. The vessel had been leased to a Chicago construction materials company for the last two years. It was hauling gravel from Grand Haven and was heavily loaded.  
Another ship leaving Grand Haven at the same time arrived in port safely and reported it rode out a bad storm Tuesday with much difficulty. It is believed the Andaste, encountering the same storm, sank in the lower end of Lake Michigan.

Electrical Needle Pushed  
Into Heart Brings Life to  
Those Apparently Dead

SYDNEY (Australia) Sept. 12. (P)—A device from which it is asserted extraordinary results have been obtained in the restoration of persons apparently dead was exhibited today at the Sydney Medical Congress.  
The device is based on the principle of stimulating heart muscles by plunging a needle charged with an electrical current into the heart for a period of ten seconds. Its designer said in one case of an infant it was possible to revive the child after usual methods proved futile. It is expected the new instrument will prove of value in cases of supposed drowning.

**LINDBERGH PLANS LONG HOP**  
With His Wife and Pan-American Line Officials as  
Passengers, Colonel Will Circle Caribbean

NEW YORK, Sept. 12. (Exclusive)—Col. Charles A. Lindbergh, accompanied by Mrs. Lindbergh, will make the longest flight in his career, beginning the 20th inst., when he hops off from Miami and circles the Caribbean, returning to Miami on October 4. It was announced today. The colonel will reverse his direction on the famous circle route through Central America and South America and the West Indies that he flew just a year and a half ago, adding a 1100 mile round trip flight between Trinidad and Paramaribo, Dutch Guiana.  
Col. Lindbergh will be accompanied by officials of the Pan-American Airways, Inc. The flight, besides opening the small line between San Juan and Paramaribo, will be in the nature of a courtesy and inspection trip for the colonel, who is technical adviser of the airways. He will spend several days at Port of Spain, Trinidad, one of the principal British islands off the coast of South America, to discuss airways with the officials there. Trinidad is one of the points he did not touch on his good will flight over the circle.

**Paraguay Also  
Ratifies Pact**  
WASHINGTON, Sept. 12. (P)—Paraguay members of the Paraguay-Bolivia commission of inquiry and conciliation today deposited with the commission their government's ratification of the conciliation formula agreed to Monday by Bolivia.

Only One Point at Issue**

LONDON, Sept. 12. (P)—Official announcement was made this evening that Ramsay MacDonald, Prime Minister of Great Britain, will sail the 28th inst. for the United States to visit President Hoover, and it is hailed here as definite evidence that the two governments virtually have reached an agreement on naval armaments.  
Well-informed circles indicated that a question involving three cruisers of the eight-inch-gun class is the only point on which full accord has not been reached.

**SHORTIDGE  
LEADS QUIZ**  
**Directs Inquiry  
on Navy Lobby**  
California Senator to Call  
Shearer First to Tell  
of Activities  
Limits of Investigation May  
be Broadened to Get  
at Whole Truth

BY LAURENCE M. BENEDEC  
"Times" Staff Correspondent  
WASHINGTON, Sept. 12. (Exclusive)—Senator Shortridge of California today was named chairman of a subcommittee of the Senate Naval Affairs Committee which will conduct the investigation demanded by President Hoover in the "big navy" activities of William B. Shearer and his relations with shipbuilding corporations he asserted hired him secretly to spread poison against efforts by this country to bring about reduction in naval armaments.  
Shortridge's associates in the inquiry will be Senator Henry J. Allen of Kansas, another Republican, and Joseph T. Robinson of Arkansas, the Democratic Senate leader. Senator Shortridge announced that the subcommittee will meet Saturday to formulate a plan of procedure and draft subpoenas. He indicated that Shearer will be the first witness summoned and that the committee will get his complete story before hearing of officials of the shipbuilding corporations implicated with him. The inquiry probably will not get actually underway until next Monday or Tuesday.

**MAY BROADEN SCOPE**  
Selection of Senator Shortridge from the President's own State to handle the investigation is regarded as assuring the complete and thorough inquiry which Mr. Hoover wants made. There is doubt, however, that the Senate resolution under which Shortridge will operate is sufficiently broad to bring out all the information that the President would like to have revealed. This resolution limits the investigation to the propaganda work of Shearer at the abortive Geneva conference of 1927 while the view as the White House is that searching inquiry should be made of all of this suave gentleman's activities, including his asserted recent efforts to wreck the negotiations now in progress for an arms limitation agreement with Great Britain.  
Secretary of State Stimson undoubtedly reflected President Hoover's attitude this afternoon, when he displayed astonishment over the fact the investigation is to be conducted by the Geneva affair, and pointed out that as recently as the 8th inst. Shearer had circulated a pamphlet branding the current disarmament negotiations as a British maneuver. The Secretary declared that every campaign conducted by Shearer in recent years, whether they affected past, present

**Attack on Jews  
Results in Riot**  
NEW YORK, Sept. 12. (P)—A negro soap box orator who launched a tirade against Jews at a Communist street meeting in Brooklyn tonight precipitated a disturbance which necessitated a call for 200 policemen and a hose company.  
One policeman was knocked unconscious as he sought to protect the negro from the crowd, several persons suffered bruises and fourteen persons were taken to the hospital.

**"TIN BUBBLE" AT LAKEHURST**  
All-Metal Dirigible Found Pierced by Bullet Holes  
After Successful Flight from Detroit

LAKEHURST (N. J.) Sept. 12. (P)—A metallic stranger wounded in the line of duty was tucked under the covers of the naval air hangar here today—an odd bedfellow for the majestic Los Angeles and the two baby blimps of the United States Navy's lighter-than-air craft.  
It was the ZMC-3, the world's first all-metal dirigible, which arrived from Detroit and is due to have a permanent bed in the hangar after another test flight when it may be formally accepted by the Navy for use in training student flyers.  
The "Tin Bubble" 350-mile flight from Detroit in charge of Capt. William Kepner of the Army was so uneventful that its crew of three was unaware of two bullet holes in the ship's huge metal gas chamber that were allowing the precious helium to escape.  
Members of the ground crew that brought the ship to earth discovered the bullet holes as they were walking the craft into the hangar. From the angle at which the bul-

## FIRE COLLECTS TOLL OF DEATH

One Killed and Two Hurt by  
Forest Blazes

Oregon Flames Sweeping on  
Despite Battle

Federal Preserve Loss Laid to  
Incendiarism

PORTLAND (Or.) Sept. 12. (P)—  
Forest fires in Oregon tonight  
claimed one life and resulted in  
directly and indirectly in serious in-  
jury to six others.

J. H. McCubbin, proprietor of a  
rooming-house at Eugene, was killed  
and four others were injured by a  
falling tree while fighting a blaze  
near the idle Portland Dollar Lum-  
ber Company mill at Mable. The  
injured men, who were working  
on the fire line, were so badly  
burned that they were taken to  
the hospital.

Several minor automobile acci-  
dents were reported to have re-  
sulted from heavy smoke in Marsh-  
field and Coos county towns.  
A forest fire near Camp 14 of  
the Silver Falls Timber Company,  
thirty miles southeast of Silver-  
ton, was threatening again although  
fighters previously reported they  
had it under control. It was burn-  
ing in slashings and had not pen-  
etrated to standing timber.

**FIRE STILL SPREADS**  
With only ten available men fight-  
ing it, an incendiary fire on Elk  
River in the Siskiyou National For-  
est tonight had spread over more  
than 2000 acres. Maj. John D. Out-  
rille of the District Forest Office here  
said more men are to be rushed to  
the blaze as soon as possible.

The Elk River blaze started in a  
pocket of timber and is said to  
have had a two-day start before  
lookouts spotted it. It is burning  
through second-growth timber.

Three other fires in the Siskiyou  
forest are reported under con-  
trol.  
A fire believed to have started  
from sparks from a mill near War-  
terville in Lane county, had spread  
over 1500 acres. Backfiring is said  
to have been useless in attempts to  
halt the flames. Farmers living on  
Camp Creek are reported to have  
banded together in an effort to keep  
the fire from spreading to their homes.

**FIRE IN WASHINGTON**  
No improvement in the fire situa-  
tion in Once and Curry counties is  
reported. The Rock Creek fire in  
Owens Valley is still spreading  
through fir and Port Orford cedar  
despite the efforts of more than 400  
men to head it. Rain appears to be  
the only hope of checking the blaze,  
which has destroyed more than 2500  
acres of timber.

Maj. Outrille described the fire  
situation in Washington as "com-  
paratively quiet but dangerous." A  
new fire is reported near the  
Parker and Oakville, in Eastern  
Grays Harbor county. It has burned  
out more than 500 acres and is  
threatening three farm homes.

## Pomona College Left \$50,000

SALEM (Mass.) Sept. 12. (P)—  
The will of Mrs. Mary M. Oliver of  
Saugus, Mass., was filed in Probate  
Court here today, bequeathing \$50,-  
000 to Pomona College, Claremont,  
Cal., and establishing a trust fund  
of \$25,000 for her son, Stacey B.  
Oliver of Pomona.

## JUST ONE MORE PEEK AT WORLD AFFAIRS

Financial Aid for Aggression  
Victim Topic at Geneva

Arms Delegates See Plan as  
Aid in Keeping Peace

Britain and Germany Give  
Whole-hearted Support

GENEVA, Sept. 12. (P)—The af-  
filiated proposal of giving finan-  
cial help to that nation which is the  
victim of aggression in warfare oc-  
cupied the disarmament committee  
of the League of Nations this af-  
ternoon. The subject was welcomed  
by spokesmen for several countries  
as giving opportunity to advance the  
cause of disarmament and national  
security.

It was agreed generally that  
financial aid given under these cir-  
cumstances would prove a strong de-  
terrent to war. The proposal, how-  
ever, that success of the plan would depend al-  
most wholly on adoption of some  
general scheme for limitation of  
armaments.

**SUPPORT FOR PLAN**  
Great Britain and Germany sup-  
ported the idea wholeheartedly. Por-  
tugal, Holland and Denmark ap-  
proved the spirit of the proposal,  
but each advanced some condition-  
al suggestions regarding the man-  
ner in which the scheme might be  
operated.

Meanwhile, a member of the Brit-  
ish delegation is understood to be  
carrying in his pocket a resolution  
dealing with another phase of the  
disarmament problem which, if pre-  
sented, probably will reopen the  
floodgates of discussion regarding  
the status of trained army reserves.  
Reliable forecasts of this proposal  
say it will recommend that agree-  
ment should be reached not only on  
the number of men serving with the  
colours, but also on the length of  
time they are to be held in reserve.

**WAR MATERIALS**  
It also was said that the British  
resolution will propose for discus-  
sion the wisdom of limiting stocks  
of war material, either directly or  
through some sort of budgetary  
system.

The proposal to discourage war by  
giving economic aid to a nation  
which is attacked or menaced came  
to the disarmament committee in  
the form of a resolution drafted  
by the finance committee of the  
League. The scheme provides for  
formation of a loan fund supported  
by nations which subscribe to the  
plan and from which the victim  
government might be granted cred-  
its.

Employment of this aid would  
rest entirely in the hands of the  
Council of the League, whose ac-  
tion would require an unanimous  
vote.

**CECIL'S ARGUMENT**  
Lord Cecil of Great Britain ad-  
vocated the project vigorously. He  
said it would enable nations to quit  
laying up stocks of munitions and  
thus open the way for a partial reduc-  
tion of armaments. He also argued that  
it is a concrete step toward securi-  
ty and the fact that it would be  
administered by the Council of the  
League would, in itself, be a great  
deterrent to hostilities.

Count von Bernstorff of Germany  
supported this position. He said,  
however, that "threat of aggres-  
sion" as used in the resolution  
would need a careful definition.  
"I agree," rejoined Lord Cecil,  
"that the phrase, 'the threat of ag-  
gression,' is a difficult one. The whole  
plan should be regarded as one of  
the risks of peace, a risk which the  
British government is glad to as-  
sume."

**CHINA DEMANDS  
TREATY JUSTICE**

(Continued from First Page)  
sacred treaties implied after the  
war.

After several hours of discus-  
sion the subcommittee was dissolved  
tonight, four members opposing  
China's demand—India, France, Ru-  
mania and Chile—and three sup-  
porting it—Germany, Austria and  
Lithuania.

**LATIN-AMERICAN UNION**  
A United States of Latin America  
may be another development of the  
League of Nations, it was revealed  
today. Like the United States of  
Europe, such a federation of the  
South and Central American states  
would not be aimed at America, its  
sponsors insist.

The Venezuelan minister to Bern-  
stein, Switzerland, Cesar Zuma, hinted  
of such a coalition in a speech be-  
fore the World Court committee  
today when the Root protocol was  
adopted to satisfy the United States  
Senate's reservations for adhering  
to the Hague organization.

M. Zuma's statements were sig-  
nificant because they followed a  
banquet last night when the dele-  
gates of fifteen Latin-American  
states had Sir Eric Drummond,  
secretary-general of the League, as  
guest of honor. Enrique Villegas,  
Chilean ambassador to Rome, and  
Chilean delegate to the League  
Council, disclosed the fact that rep-  
resentatives of Central and South  
American republics now are en-  
gaged in conferences for closer co-  
operation and collaboration.

M. Zuma of Venezuela and M.  
Cornejo, representing Peru at the  
League Council, also spoke, develop-  
ing the plan further. The delegates  
of the Central and South American  
states decline to make public the  
extent to which the conversations of  
the Latin-American federation has  
proceeded. It is learned that they  
will take guiding lines from the  
French plan for a federated Europe.  
"If ever the reservations of the  
United States are applied in respect  
to the dispute of the American  
states," Mr. Zuma said, "those  
states always will find a legal means  
of coming to an agreement in ac-  
cordance with the rules of law and  
would always be able to find com-  
petent jurisdiction. The difficulties  
arising from the Monroe Doctrine  
are daily becoming less acute  
through apprehension that still  
continues on the other side of the  
Atlantic."

The Monroe Doctrine was, it is  
said, to be only at each stage of de-  
velopment, a variable quantity—an  
expression resulting in the devel-  
opment of forces of two kinds—the  
powerful units of the United States  
and against it the plurality force  
formed by other American states.

## American-Turk Pact in Making

CONSTANTINOPLE, Sept. 12. (P)—  
Preliminary negotiations are under-  
way at Ankara between the Amer-  
ican ambassador to Turkey, Joseph  
C. Grew, and the Turkish Foreign  
Minister, Dr. Tewfik Rushdi Bey, for  
an American-Turkish commercial  
treaty.

cause of disarmament and national  
security.

It was agreed generally that  
financial aid given under these cir-  
cumstances would prove a strong de-  
terrent to war. The proposal, how-  
ever, that success of the plan would depend al-  
most wholly on adoption of some  
general scheme for limitation of  
armaments.

**SUPPORT FOR PLAN**  
Great Britain and Germany sup-  
ported the idea wholeheartedly. Por-  
tugal, Holland and Denmark ap-  
proved the spirit of the proposal,  
but each advanced some condition-  
al suggestions regarding the man-  
ner in which the scheme might be  
operated.

Meanwhile, a member of the Brit-  
ish delegation is understood to be  
carrying in his pocket a resolution  
dealing with another phase of the  
disarmament problem which, if pre-  
sented, probably will reopen the  
floodgates of discussion regarding  
the status of trained army reserves.  
Reliable forecasts of this proposal  
say it will recommend that agree-  
ment should be reached not only on  
the number of men serving with the  
colours, but also on the length of  
time they are to be held in reserve.

**WAR MATERIALS**  
It also was said that the British  
resolution will propose for discus-  
sion the wisdom of limiting stocks  
of war material, either directly or  
through some sort of budgetary  
system.

The proposal to discourage war by  
giving economic aid to a nation  
which is attacked or menaced came  
to the disarmament committee in  
the form of a resolution drafted  
by the finance committee of the  
League. The scheme provides for  
formation of a loan fund supported  
by nations which subscribe to the  
plan and from which the victim  
government might be granted cred-  
its.

Employment of this aid would  
rest entirely in the hands of the  
Council of the League, whose ac-  
tion would require an unanimous  
vote.

**CECIL'S ARGUMENT**  
Lord Cecil of Great Britain ad-  
vocated the project vigorously. He  
said it would enable nations to quit  
laying up stocks of munitions and  
thus open the way for a partial reduc-  
tion of armaments. He also argued that  
it is a concrete step toward securi-  
ty and the fact that it would be  
administered by the Council of the  
League would, in itself, be a great  
deterrent to hostilities.

Count von Bernstorff of Germany  
supported this position. He said,  
however, that "threat of aggres-  
sion" as used in the resolution  
would need a careful definition.  
"I agree," rejoined Lord Cecil,  
"that the phrase, 'the threat of ag-  
gression,' is a difficult one. The whole  
plan should be regarded as one of  
the risks of peace, a risk which the  
British government is glad to as-  
sume."

**CHINA DEMANDS  
TREATY JUSTICE**

(Continued from First Page)  
sacred treaties implied after the  
war.

After several hours of discus-  
sion the subcommittee was dissolved  
tonight, four members opposing  
China's demand—India, France, Ru-  
mania and Chile—and three sup-  
porting it—Germany, Austria and  
Lithuania.

**LATIN-AMERICAN UNION**  
A United States of Latin America  
may be another development of the  
League of Nations, it was revealed  
today. Like the United States of  
Europe, such a federation of the  
South and Central American states  
would not be aimed at America, its  
sponsors insist.

The Venezuelan minister to Bern-  
stein, Switzerland, Cesar Zuma, hinted  
of such a coalition in a speech be-  
fore the World Court committee  
today when the Root protocol was  
adopted to satisfy the United States  
Senate's reservations for adhering  
to the Hague organization.

M. Zuma's statements were sig-  
nificant because they followed a  
banquet last night when the dele-  
gates of fifteen Latin-American  
states had Sir Eric Drummond,  
secretary-general of the League, as  
guest of honor. Enrique Villegas,  
Chilean ambassador to Rome, and  
Chilean delegate to the League  
Council, disclosed the fact that rep-  
resentatives of Central and South  
American republics now are en-  
gaged in conferences for closer co-  
operation and collaboration.

M. Zuma of Venezuela and M.  
Cornejo, representing Peru at the  
League Council, also spoke, develop-  
ing the plan further. The delegates  
of the Central and South American  
states decline to make public the  
extent to which the conversations of  
the Latin-American federation has  
proceeded. It is learned that they  
will take guiding lines from the  
French plan for a federated Europe.  
"If ever the reservations of the  
United States are applied in respect  
to the dispute of the American  
states," Mr. Zuma said, "those  
states always will find a legal means  
of coming to an agreement in ac-  
cordance with the rules of law and  
would always be able to find com-  
petent jurisdiction. The difficulties  
arising from the Monroe Doctrine  
are daily becoming less acute  
through apprehension that still  
continues on the other side of the  
Atlantic."

The Monroe Doctrine was, it is  
said, to be only at each stage of de-  
velopment, a variable quantity—an  
expression resulting in the devel-  
opment of forces of two kinds—the  
powerful units of the United States  
and against it the plurality force  
formed by other American states.

## American-Turk Pact in Making

CONSTANTINOPLE, Sept. 12. (P)—  
Preliminary negotiations are under-  
way at Ankara between the Amer-  
ican ambassador to Turkey, Joseph  
C. Grew, and the Turkish Foreign  
Minister, Dr. Tewfik Rushdi Bey, for  
an American-Turkish commercial  
treaty.

## SHE FAILS TO FIGHT SUIT OF HUSBAND

Financial Aid for Aggression  
Victim Topic at Geneva

Arms Delegates See Plan as  
Aid in Keeping Peace

Britain and Germany Give  
Whole-hearted Support

GENEVA, Sept. 12. (P)—The af-  
filiated proposal of giving finan-  
cial help to that nation which is the  
victim of aggression in warfare oc-  
cupied the disarmament committee  
of the League of Nations this af-  
ternoon. The subject was welcomed  
by spokesmen for several countries  
as giving opportunity to advance the  
cause of disarmament and national  
security.

It was agreed generally that  
financial aid given under these cir-  
cumstances would prove a strong de-  
terrent to war. The proposal, how-  
ever, that success of the plan would depend al-  
most wholly on adoption of some  
general scheme for limitation of  
armaments.

**SUPPORT FOR PLAN**

# PLANTS AIDED BY MANGANESE

Chemists Learn of New Use for Steel Strengthening

Results of Tests Set Forth at Meeting in East

Blast Furnace Used to Make Phosphate Fertilizer

MINNEAPOLIS, Sept. 12. (Exclusive)—Manganese, so important as a strengthener for steel that tariff battles are being fought over it, also is a stiffener for plants. This was disclosed at the meeting of the American Chemical Society, whose sessions ended here today.

L. G. Willis of the Raleigh (N. C.) agricultural experiment station told how he has found manganese a useful addition to the fertilizers put on certain soils. Manganese is not one of the seven mineral nutrients used in greatest bulk by plants, but a little of it, like salt on our food, seems to do a lot of good.

The metallurgical and fertilizer chemists met also in the experiments of P. H. Royner and J. W. Turrittelle of the United States Department of Agriculture. They have been using a blast furnace, in time honored iron-smelting style, for the preparation of a more concentrated form of phosphate fertilizer. Phosphates are needed in great quantities but as they occur in nature they are very bulky and hence expensive to ship. The two experimenters believe that the blast-furnace method holds enough promise to be worth trying on a larger scale.

Skim milk, formerly a troublesome semisolid product in the dairy industry, now yields valuable food and industrial materials. F. P. Wabenhauer of Philadelphia told his fellow-chemists. Lactose or milk sugar finds a wide market because of its high digestibility and its usefulness in encouraging helpful bacteria in the digestive tract and keeping down harmful germs.

Cheese, which is the principal constituent of casein, is the basis of many of the artificial ivory now on the market. Another fraction of the casein milk becomes a part of chicken feeds. In fact, when the modern dairy chemists get through with milk there isn't anything left of it but water.

Adulterating cod liver oil with mineral oil not merely makes a low-grade product of it, but normally decreases the medicinal value of what is left. P. B. Hawk, H. Levine, C. J. Stuckey and R. L. Coss of New York City discovered that the vitamins A and D in cod liver oil had less effect when they were fed in conjunction with mineral oil than they had when the same quantity of cod liver oil was administered without any addition.

Angeleno Expects Finally to Reach New York

Albert Voigt and His Canoe in Seattle Harbor

## BALTIMORE OBSERVES ITS 200TH BIRTHDAY

BALTIMORE, Sept. 12. (P)—Baltimore today began a four-day celebration of its two hundredth birthday. Today was a legal holiday in Maryland (Defenders' Day) the anniversary of the successful defense of Baltimore at Fort M'Henry in 1814, and schools as well as all public and many commercial institutions were closed. The Navy sent the battleship New York and the cruiser Memphis to take part in the celebration.

SEATTLE, Sept. 12. (Exclusive)—Albert Voigt of Los Angeles having navigated a tiny skin-covered canoe through 1000 miles of angry seas from Juneau, Alaska, to Seattle, is convinced that his little craft will carry him the remainder of the way to New York. The canoe is equipped with a sail which relieves him of the duty of paddling when the weather is right. He arrived here several days ago.

GRAY AGAIN IN HOME PORT FRIEDRICHSHAFEN, Sept. 12. (P)—The Graf Zeppelin returned to its home port tonight after an eight-hour flight over the Rhineland and North Germany.

TUG REPORTED SAFE PORT ARTHUR (Ont.) Sept. 12. (P)—The tug A. B. Connes, believed to have been missing on Lake Superior in a storm, is safe near Isle Royale, according to word received last night.

WALTER E. GILBERT, Western Canadian Airways pilot, brought the injured man to civilization.

Unarmed, Hughes, attacked by the criminal while inspecting mining claims, lost one finger. His face was badly lacerated and he was otherwise bruised and cut.

# TWO APPOINTED ON WORLD BANK

Reynolds and Teylor to Represent America

Will Assist Committee in Drafting Statutes

Selections Were Made by Young and Morgan

NEW YORK, Sept. 12. (Exclusive)—Jackson E. Reynolds, president of the First National Bank of New York, and Melvin A. Teylor, president of the First National Bank of Chicago, have been named as the two Americans to sit on the subcommittee appointed by The Hague Reparations Conference to draw up the statutes of the Bank of International Settlements.

News of their appointment as the American members of the "world bank" was obtained in Wall Street today and was confirmed. Selection of the two bankers was made by Owen D. Young, author of the reparations plan bearing his name, and J. P. Morgan, delegate to the Paris experts' commission, which devised the plan.

Mr. Reynolds was at his desk at the First National Bank today, and was reported making arrangements for his departure with Mr. Teylor for Brussels, where they will meet the other delegates for discussion of this most important phase of the Young plan and the outline of its functions.

## BEAR INJURES MINER

Canadian Victim Taken 1000 Miles In Plane to Hospital

VICTORIA (B. C.) Sept. 12. (P)—Seriously wounded in an encounter with a bear last Thursday, H. C. Hughes, superintendent of the Emerald mine at Coquitlam in North British Columbia, is in a hospital here today after a 1000-mile flight.

Walter E. Gilbert, Western Canadian Airways pilot, brought the injured man to civilization. Unarmed, Hughes, attacked by the criminal while inspecting mining claims, lost one finger. His face was badly lacerated and he was otherwise bruised and cut.

# BOMB PLOTTING LAID TO WOMEN

Police Unraveling Mystery of German Terrorizing

Wives Said to Have Egged on Husbands and Sons

Open Contempt Shown for Republican Party

(Copyright, 1939, by Chicago Tribune.) BERLIN, Sept. 12. (Exclusive)—The police slowly are unraveling the threads of the mystery bomb throwing by the Mafia of Germany. German women of excellent families are being revealed as the plotters who are egging on their husbands and sons to the adventurous game of bomb throwing in order to terrorize the Republican population of their country.

"Anything you do against the republic is justified," Sonja Lankes declared today to a policeman who arrested her in the office of her chief, Capt. Ehrhardt, head of the former "Organization Consul," famed for its plotting proclivities. Despite this open contempt for the republic, the police released the beautiful 38-year-old Sonja because they could not prove her active participation in the bomb-throwing plots.

Frau Odobel, mother of Herbert Volk, who fled from Hamburg because he knew the police can prove his guilt, carried on correspondence from her villa in Thuringia until she was arrested.

A score of other German women figure in the police investigations. Although convinced that the wives of the men they arrested played an important part in the bomb-throwing plots, the police are trying to avoid their arrest, partly out of old-time respect for their sex and partly also because they hope that these women will give valuable clues. Many of them went in wholeheartedly for the game and were the inspiration for the political salons.

## PASADENA HURT IN CRASH

KANSAS CITY, Sept. 12. (P)—George F. Dolan, 30 years of age, of Pasadena, was injured seriously yesterday on a highway near here when his automobile skidded into a ditch after a tire had exploded.

# Old Gold said... "write whatever you please" Floyd Gibbons

"... go out and watch New York's famous 'Old Seventh' Regiment take the concealed name cigarette test. We will publish your eye-witness story word for word"... So here it is.

By Floyd Gibbons

CAMP SMITH, Peekskill, N. Y., Aug. 17th.—I have shared the soldier's cigarette in pretty nearly every corner of the world, and I know how set in his ways an army man can get when it comes to knowing what smoke he likes. So, frankly, the idea that a two year old cigarette—even if it did have the name OLD GOLD—could win this test over three old time brands seemed unbelievable.

But the thing worked out. At Camp Smith, where I witnessed the test, OLD GOLD put the bee on 506 Yanks of the Old Seventh New York Regiment.

The Old Seventh went OLD GOLD with 195 bull's-eyes, as against 144 for the next brand, with the two other old timers rating scores of 81 and 86. That's the target tally for the 506 doughboys who stood on the smoking line and took drags on each of the four masked cigarettes. What's more, this concealed name test is as square as a regimental parade ground.

FLOYD GIBBONS—Famous American war correspondent, known for the vigor and fearlessness of his dispatches in the Chicago Tribune. Mr. Gibbons has seen nine wars. His latest books are "The Napoleon" and "The Red Knight of Germany."

# SENATE SAGES IN NEW CLASH

and Simmons Lock Horns Once More

Attacks and Former Defends Tariff Plan

Warren Democrat Outlines Nine Objections

WASHINGTON, Sept. 12. (P)—The Senate today in legislative session of a quarter of a century, the new 75 years of age, and the old 75 years of age, resumed their familiar places in the Senate today in connection with the tariff.

The older, Senator Furnifold M. Denham of North Carolina, began the debate on the bill which he introduced, "The Tariff Revision Act of 1939." His 10,000-word speech was made as a senior senator on the Finance Committee, a position of which he has held since 1931.

After listening two hours, Senator Charles McNary of Oregon answered as a junior senator on the Finance Committee. He attacked the bill and all its provisions had been heard before.

Senator McNary, in his first time in the Senate, read his speech, going through it with the aid of a clerk, and the Senate to discuss this phase of his physical condition.

SINCE SENATOR DENHAM'S STAND on the bill made by the Finance Committee, who was a member of the Finance Committee in the Wilson administration, Senator McNary was falling in line with the President's policy of protection.

Senator McNary's attack on the bill was a direct challenge to the President's policy of protection. He said that the bill would increase the cost of living and that it would be a burden on the people.

Senator McNary's attack on the bill was a direct challenge to the President's policy of protection. He said that the bill would increase the cost of living and that it would be a burden on the people.

## DEFENDED BY SMOOT

Senator Hoover's request for increased tariff protection on many articles has been a sticking point of contention since the President's inauguration.

Senator McNary's attack on the bill was a direct challenge to the President's policy of protection. He said that the bill would increase the cost of living and that it would be a burden on the people.

NEWEST MEMBER OF UPPER HOUSE

WILLIAM E. BROCK

WASHINGTON, Sept. 12. (Exclusive)—The newest member of the United States Senate is William E. Brock of Chattanooga, Tenn. He has just taken the seat made vacant by the death of Senator Lawrence D. Tyson.

Senator Brock was appointed after Luke Lea, Tennessee newspaper publisher, had declined the seat.

Georgia Woman Explains Defeat

ATLANTA, Sept. 12. (P)—Georgia's first woman candidate for Congress, Mrs. George Brown, of Atlanta, today listed natural prejudices against her sex, inclement weather and overconfidence of friends as causes for her defeat yesterday in the Democratic primary by Robert C. W. Ramspeck.

Ramspeck, selected by the Democrats to succeed the late Representative Steele, carried four out of five counties in the Fifth District. The total vote was 4011, of which Ramspeck received 3203 and Mrs. Brown 808.

Senate Honors Kvale Memory

WASHINGTON, Sept. 12. (P)—The Senate recessed today until tomorrow out of respect to the memory of Representative O. J. Kvale, who was burned to death in a cottage in Minnesota.

Before recessing the Senate adopted a resolution of regret introduced by Senator Schall, Republican, Minnesota.

"Representative Kvale," said Schall, "undoubtedly was one of the foremost men in the House as the champion of labor and agriculture. He was elected by greater and greater majorities at every election."

FOGARTY ASKS TRIAL BY JURY

Tunney's Accuser Decides Not to Trust Judge

BRIDGEPORT (Ct.) Sept. 12. (Exclusive)—John S. Fogarty, former Texas plumbing supply salesman, will not trust a Connecticut judge to decide the merits of his \$500,000 alienation of affections suit against Gene Tunney.

Instead, he wants a jury to value in terms of dollars and cents the amount of damages the now retired world's heavyweight champion inflicted upon him by "winning the love and affections of Mrs. Fogarty," who now is divorced from him.

Fogarty's attorney, Charles B. Martin of New Haven, in Superior Court here today filed a claim for trial by a jury. This procedure was considered unusual by court officials, as claims for jury trial usually are not filed until the defendant answers the plaintiff's suit. Tunney has not yet filed his answer.

SIXTEEN DIE IN BATTLE OF RIVAL VILLAGERS

BELOGRADE, Sept. 12. (Exclusive)—Community rivalry often is serious in these parts of the world. The fact was demonstrated in Herzegovina, a province of Jugoslavia, when a toll of sixteen lives was taken in a battle halfway between the villages of Radischic and Humci, in the Ljubuski territory.

The inhabitants of Humci cannot stand the sight of their countrymen living less than two miles away at Radischic. Blood feuds rivalry over the ownership of stony fields and quarrels over division of crops have the two villages sworn enemies and at sword's point.

The well-meaning Franciscan fathers of the monastery at Humci gave a festival in the hope of bringing the two communities together. They did come together with a vengeance. After a couple of gallons of local firewater known as alivirva had been consumed, the age-long rivalry flared up. Knives flashed and after three hours of violence the monks counted sixteen dead and seventy wounded.

Women and the children stood on the side lines during the hostilities and urged the men on, brought them refreshments, carried off the dead and attended the wounded. Most of the latter are suffering from great gashes of the long, curved knives that nearly everybody carries in Herzegovina.

League Seeks Hospital Fund

SAN FRANCISCO, Sept. 12. (Exclusive)—Efforts to obtain a \$1,000,000 Congressional appropriation for a United States veterans' hospital and co-ordinated diagnostic center in San Francisco were described today to delegates at the Pacific division Red Cross conference by James K. Fisk, State adjutant of the American Legion.

The need is acute, Fisk contended, because 1800 of 2500 veterans receiving hospital care throughout the State are located in the bay area.

BRITAIN PLANS SOVIET ACCORD

Note Sent Moscow Invites New Negotiations

LONDON, Sept. 12. (P)—Great Britain today took new steps toward resuming commercial and diplomatic relations with soviet Russia. The British government sent to the Norwegian government for transmission to the Russian government a note expressing the view that the time has come when it will be desirable to resume the conversations interrupted several months ago by the departure of the Soviet plenipotentiary Dorgalevsky.

It is thought possible a meeting may be arranged between Foreign Secretary Henderson and a representative of the soviet government while Mr. Henderson is at Geneva.

SLAYER OF BOY DOOMED

CATTESBURG (Ky.) Sept. 12. (P)—A jury here today gave the death penalty to William Smiley, 30 years of age, for killing Joe Deskins, 12, last July.

How One Woman Lost 20 Pounds of Fat

Lost Her Double Chin—Lost Her Prominent Hips—Lost Her Sluggishness

Gained Physical Vigor—Gained in Vivaciousness—Gained a Shapely Figure.

If you're fat—remove the cause! KRUSCHEN SALTS contain the essential salts your body organs, glands and nerves must have to function properly.

When your vital organs fail to perform their work correctly—your bowels and kidneys can't throw off that waste material—before you realize it—you're growing hideously fat!

Try half a teaspoonful of KRUSCHEN SALTS in a glass of hot water every morning—in 2 weeks get on the scales and note how many pounds of fat have vanished.

Notice also that you have gained in energy—your skin is clearer—your eyes sparkle with glorious health—you feel younger in body—keener in mind. KRUSCHEN will give any fat person a joyous surprise.

Get an 85c bottle of KRUSCHEN SALTS at any Owl Drug Store (lasts 3 months). If even this first bottle doesn't convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—so gloriously energetic—vigorously alive—your money gladly returned.

OPENING SILVERWOODS

WILSHIRE BOULEVARD STORE

SILVERWOODS

SCHAFFNER & MARX

CLOTHES

THIS fine new store of Silverwoods is holding open house Thursday, Friday and Saturday this week. We invite you to be present.

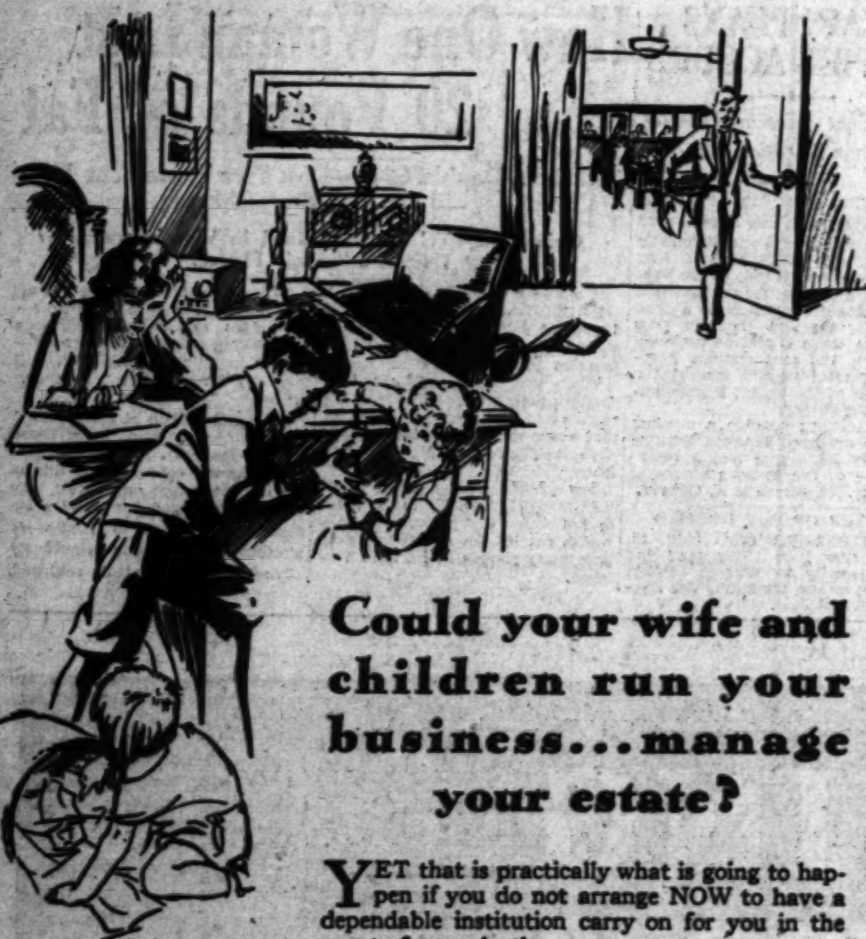

On Wilshire Boulevard near the intersection of La Brea, Silverwoods becomes part of the famous "Miracle Mile" of Wilshire—a delightful and convenient style center, serving the great Hollywood-Wilshire, Beverly Hills and Santa Monica Bay districts.

The store itself embodies the very newest innovations in convenience and comfort for the customer—in a setting decidedly modern. A spacious parking area has been provided at the southern entrance. Men, young men and boys will find here the most advanced style expressions in Hart Schaffner & Marx clothes, together with all those other nationally famous lines that have been part of the Silverwood service in the past. The women folks will like the shopping comfort.

Today and continuing through the week the store will be open from nine in the morning until nine at night. You are cordially invited to attend.

5522 WILSHIRE BOULEVARD (Near La Brea)

SILVERWOODS DOWNTOWN STORE IS AT SIXTH AND BROADWAY.

## Could your wife and children run your business...manage your estate?

YET that is practically what is going to happen if you do not arrange NOW to have a dependable institution carry on for you in the event of your death.

Title Guarantee and Trust Company is fully equipped to act for you with thorough consideration for the best interests of your heirs at all times.

Many brilliant business executives have made such an arrangement by nominating this institution as Executor and Trustee in their Wills.

Let us prove to you that our practical, proven trust methods will appeal to your sense of good judgment.

## DEPENDABLE RAILROAD SERVICE

BUSINESS men know the importance of proper conditions and prompt arrival of freight at markets. Delay in shipment is loss of revenue and oftentimes loss of future patronage. Railroads are the link upon which your business depends. The primary purpose and appointed responsibility of such a link in industrial existence is dependable service.

This quality has been achieved by the Missouri Pacific Lines and its connections. Directness of route to and from eastern industrial centers and aggressive co-operation of an army of "sold" employees operating excellently maintained modern equipment assure you of service perfection.

## WASTE OF GAS IN STATE JUMPS

Figures for Seven Months Nearly Double 1928

Total in Cubic Feet Set at 128,000,000,000

Official Indorses Curb Put on Santa Fe Springs

SAN FRANCISCO, Sept. 12. (AP)—Natural gas wastage in California oil fields during the first seven months of 1929 nearly doubled the amount wasted in twelve months last year, Claude C. Brown, gas administrator for the State Railroad Commission, reported to the commission here today.

Wastage through July of this year, Brown reported, totaled 128,000,000,000 cubic feet. In 1928, he said, the total at the end of the year was 71,000,000,000 cubic feet, the equivalent of 3,000,000 tons of coal or 14,000,000 barrels of oil.

Brown indicated steps taken by the Department of Natural Resources enjoining operators in the Santa Fe Springs district against unreasonable gas wastage.

## CIRCUS RING USED TO TRY RUSS MONK

Soviet Uses Murder Case to Discredit Religion, Dispatches Declare

BERLIN, Sept. 12. (AP)—Dispatches from Kiev, Russia, to the newspaper Lokal Anzeiger today described how the Russian authorities there are taking the opportunity provided by the trial of the monk Tichon of the famous Spevskaya monastery and the Abbess Vorokova, charged with the murder of a nun, to bring the Christian religion into contempt.

The trial is said to be held in a circus building and posters announced "grand circus performance today. Murder trial of monk and abbess. Entrance free."

The arena wherein clowns usually played their tricks is turned into a courtroom, above which dangled the ropes of the trapeze as a symbol of the probable fate of the accused. Three thousand spectators filled the seats around the arena.

## California Fruit Laboratory Sets Sail for Orient

SAN FRANCISCO, Sept. 12. (Exclusive)—California's first seagoing fruit laboratory sails tomorrow on an experimental trip to the Near East. Embarking on the refrigerator ship Silver Star, Prof. E. L. Overholser of the division of pomology of the State College of Agriculture, is voyaging to Japan, China, the Philippines, Java and the Straits Settlements with an assorted cargo of fresh fruit.

The orchard products are packed in all sorts of containers and the fruit has been picked at various stages of maturity. Prof. Overholser expects to learn from the test voyage exactly what fruits and what containers are the most adapted for trans-Pacific shipment; with degree of refrigeration is proper for a long journey through the tropics; for trans-Pacific shipment; what degree of refrigeration is proper for fruits best adapted for long-distance travel, and what sort of packing tends to keep orchard products properly.

## Rice Growers to Obtain Loan

WASHINGTON, Sept. 12. (Exclusive)—The Federal Farm Board announced today that it has agreed to make loans totaling \$250,000 to the Rice Growers' Association of California.

The association, which has headquarters at Sacramento and controls approximately 90 per cent of the rice grown in California, will be advanced up to \$250,000 on No. 1 grade paddy rice covered by bonded warehouse receipts, and an additional \$50,000 on paddy or milled rice stored in mill warehouses covered by bonded receipts.

## Student Slayer Gets Life Term

PORTLAND (Or.) Sept. 12. (AP)—Walter J. Fink, Jr., 17 years of age, slayer of Herbert Beem, 19, student rival for the affections of a high-school girl, was sentenced to life imprisonment on a second-degree murder charge in Circuit Court today.

## Power Board Names Counsel

WASHINGTON, Sept. 12. (AP)—The Federal Power Commission today announced that Col. Thad H. Brown of Columbus, O., has been appointed chief counsel of the commission succeeding Maj. Lewis W. Call, who is relinquishing office at his own request.

## THREE PILOTS FLY OVER NEW AIR ROUTE

DENVER, Sept. 12. (AP)—Three pilots left Lowry Field here late today on an initial test flight of the new Midcontinent Air Express passenger service to El Paso and Los Angeles.

## Colman Voice on Film Fatal to His Mother

SYDNEY (N. S. W.) Sept. 12. (Exclusive)—Joy brought death today to Mrs. Marjorie Colman, mother of Ronald Colman, film actor.

Mrs. Colman collapsed several days ago in a local theater when, for the first time in eight years, she heard her famous son's voice during the first showing here of "Bulldog Drummond," a talking picture in which Colman is the star.

## Two Lose Lives in Plane Crash

CARROLL (Iowa) Sept. 12. (AP)—Thomas Craig, Des Moines pilot, and Miss Faith West of Parlin, Iowa, were burned to death when a plane in which they were flying crashed and caught fire near the airport here.

Another passenger, James Farrell of Jefferson, was thrown from the plane and injured.

## EDITOR'S BEST COMPLETED

CHICAGO, Sept. 12. (AP)—A bust of Eliah Parish Lovejoy, martyr abolitionist editor of Alton, has been completed by Oscar J. W. Hansen as the first of four to be placed in the Illinois Press Association Hall of Fame.

## T.A.T. CRASH SENATE QUIZ TO BE ASKED

Bratton Wants to Avert Similar Plane Disasters; Regulations Favored

ALBUQUERQUE (N. M.) Sept. 12. (AP)—A resolution asking for a Senatorial investigation of the wreck of the T.A.T. plane City of San Francisco, in which eight persons were killed, will be introduced in the United States Senate Tuesday by United States Senator Bratton of New Mexico.

Mr. Bratton said he will introduce the resolution not solely to determine whether any mistakes have been made, but principally to determine how similar disasters in the future can be averted.

Senator Bratton takes the position that airplanes doing an interstate business should come under the classification of a common carrier and should be subject to Congressional regulation, the same as railroads and steamship lines.

Senator Bratton said he believes the investigation should be conducted by the Senate Committee on Interstate Commerce, of which Senator Coughs of Michigan is chairman.

## Safeguard Your Family's Health with year 'round Refrigeration

Perishable foods "perish" at temperatures over 50 degrees! Danger lurks in the home where there is inadequate refrigeration. Food waste, spoilage and bacteria are bandits who seek to raid your health and budget. Unpleasant facts! But true, nevertheless.

Fifty degree cold is your protection. Throw out makeshift closets and window boxes. Inspect your present equipment. Do not be satisfied with anything less than a well constructed, properly filled ice box or an electric refrigerator.

Health depends largely on foods. Adequate, year 'round refrigeration safely guards perishable foods. Adequate refrigeration is cheap in Los Angeles.

Your ice company will sell you the latest model ice box at a reasonable price and charge you little to keep it filled. Your Department of Water and Power will furnish electricity for your electric refrigerator for only \$1.50 a month or less. New prices and attractive terms are offered by all electric refrigerator dealers.

Don't put it off. It is too serious a matter. Come to the Appliance Display room—207 South Broadway—and see all makes of electric refrigerators on demonstration. Inquire the different colors. Nothing is for sale. This service is one of the many benefits of your Municipal ownership.

\$1.50 a month for Electricity to Operate an Electric Refrigerator

## RICH GIRL'S RUM CASE REOPENED

Grand Jury Urges Miss Grant be Prosecuted Again

Attorney Asked to Press New Charges

After Crash Decried

JOSE, Sept. 12. (AP)—There was a complete miscarriage of justice if the Josephine Grant case was allowed to drop, the Santa Clara county grand jury reported today as the conclusion of its investigation of the case. The grand jury therefore directed its report reads, "The District Attorney to prosecute Miss Grant on the most available charge, that of transportation of a person or the hit-and-run charge, or

Grant, wealthy San Francisco girl, was arrested here July 13 and subsequently charged with driving while intoxicated, possession of a motor vehicle without license, and reckless driving. She was held \$50 on the latter charge and released by Police Judge Josephine Grant. The other two charges were dropped on motion of the deputy district attorney prosecuting the case.

J. J. Sugrue, Los Angeles publisher, charged with criminal libel against Grant for his vigorous attack on the conduct of the case. The charge was dismissed upon recommendation at the conclusion of Sugrue's preliminary examination.

## GIRL'S RUM REOPENED

Very Upright Miss Grant  
Reopened Again

Miss Grant Asked to  
Drop New Charges

Miss Grant in Freeing Her  
Crash Decried

NEW YORK, Sept. 12. (Ex-  
clusive)—The complete miscarriage of  
justice in the case of Miss Josephine Grant  
was today declared by the Santa  
Barbara grand jury which here this  
morning returned its verdict in the case  
of the girl who had been charged with  
the murder of a man who had been  
killed in a car crash.

San Francisco, Sept. 12. (Ex-  
clusive)—A suit for divorce from a man  
who has been officially declared dead  
is on file here today.

After Henry Jensen had sup-  
posedly died by his own hand in 1924  
his wife married James T. Ritchie,  
justice of the peace of Winnemucca,  
Nev. Last month a daughter by the  
first marriage reported missing her  
father in San Francisco.

Grounds for the divorce set forth  
there is a possibility of Jensen be-  
ing alive. In such an event Mrs.  
Ritchie declares she wants to make  
certain of the legality of her pre-  
sent marriage.

## SHE'LL LIKELY FACE NEW COURT CHARGE

Josephine Grant

## Divorce Asked From Mate Now Legally Dead

NEW YORK, Sept. 12. (Ex-  
clusive)—While Charles Delos Waggoner,  
president of the Bank of Telluride,  
Colo., waited quietly in his cell in  
the little town of Newcastle, Wyo.,  
where he was arrested, a committee  
representing the six New York banks  
he victimized was negotiating for  
the return of the \$500,000 which  
Waggoner obtained in credit here on  
faked telegrams from Denver.

The New York bankers apparently  
are confident that they will get  
back their money, despite disturbing  
reports that legal entanglements  
may be so great that the retention  
of the funds would be possible at  
Telluride, thus making Waggoner's  
manipulation a "perfect financial  
crime." Lawyers who have been  
questioned about the matter readily  
say that it offers some new legal  
puzzles.

On the other hand, the commit-  
tee working here, headed by  
Comptroller Borden of the National  
City Bank, is said to have learned  
from Colorado bankers who now  
are in charge of the Telluride bank  
that they have no intention of keep-  
ing any of the money transferred  
there.

The Continental Bank of Salt  
Lake City and the First National  
Bank of Pueblo, Colo., which re-  
ceived part of the funds to meet  
Waggoner's obligations, both are  
said to have agreed to surrender

## BANKER VICTIMS BUSY ON TANGLE

Waggoner Case Committee  
Seeks Return of Money

Legal Complications May  
Balk Recovery Efforts

Accused Man Undisturbed  
in Wyoming Lock-up

NEW YORK, Sept. 12. (Ex-  
clusive)—The four-room apartment which  
John Coolidge will occupy with his  
wife has the approval of his moth-  
er.

Mrs. Calvin Coolidge visited it  
with Miss Florence Trumbull, her  
son's fiancée, and Mrs. Trumbull,  
wife of the Governor of Connecti-  
cut. "I am pleased with it," she  
remarked.

the money represented by certified  
checks turned over to them by  
Waggoner.

Waggoner, however, safe behind  
the bars in the obscure town of  
Newcastle, appears to be unper-  
turbed and has said repeatedly, ac-  
cording to dispatches, that he is  
"glad it is over."

His very insistence that he alone  
is responsible for the amazing  
swindle has led the authorities to  
search all the more diligently for  
possible confederates. They are in-  
clined to scout the idea now that  
Waggoner, the little aquint-eyed  
banker from the West, arranged the  
scheme and consummated it alone.

Dispatches from Newcastle today  
indicated the possibility that Wag-  
goner may plead temporary mental  
derangement when arraigned on the  
criminal charges. Persons who vis-  
ited him at his cell last night said  
he informed them that the events of  
last year are hazy in his recol-  
lection.

He said he had been worrying for  
some time over the condition of his  
bank and that he felt his obliga-  
tions to his lifelong friends and de-  
positors were greater than the peni-  
alty he might expect from the  
courts—hence the fraud, planned  
and executed by him, he insisted.

Meanwhile Federal warrants for  
Waggoner's arrest on a charge of  
using the mails to defraud were  
serving by airplane today to the  
United States Attorney at Chey-

## JOHN COOLIDGE'S FLAT APPROVED BY MOTHER

NEW HAVEN (Ct.) Sept. 12. (Ex-  
clusive)—The four-room apartment which  
John Coolidge will occupy with his  
wife has the approval of his moth-  
er.

Mrs. Calvin Coolidge visited it  
with Miss Florence Trumbull, her  
son's fiancée, and Mrs. Trumbull,  
wife of the Governor of Connecti-  
cut. "I am pleased with it," she  
remarked.

the money represented by certified  
checks turned over to them by  
Waggoner.

Waggoner, however, safe behind  
the bars in the obscure town of  
Newcastle, appears to be unper-  
turbed and has said repeatedly, ac-  
cording to dispatches, that he is  
"glad it is over."

His very insistence that he alone  
is responsible for the amazing  
swindle has led the authorities to  
search all the more diligently for  
possible confederates. They are in-  
clined to scout the idea now that  
Waggoner, the little aquint-eyed  
banker from the West, arranged the  
scheme and consummated it alone.

Dispatches from Newcastle today  
indicated the possibility that Wag-  
goner may plead temporary mental  
derangement when arraigned on the  
criminal charges. Persons who vis-  
ited him at his cell last night said  
he informed them that the events of  
last year are hazy in his recol-  
lection.

He said he had been worrying for  
some time over the condition of his  
bank and that he felt his obliga-  
tions to his lifelong friends and de-  
positors were greater than the peni-  
alty he might expect from the  
courts—hence the fraud, planned  
and executed by him, he insisted.

Meanwhile Federal warrants for  
Waggoner's arrest on a charge of  
using the mails to defraud were  
serving by airplane today to the  
United States Attorney at Chey-

enne, Wyo., and to the Sheriff at  
Newcastle.

**PRISONER WEEPS WHEN WIFE VISITS CELL**  
NEWCASTLE (Wyo.) Sept. 12. (Ex-  
clusive)—C. D. Waggoner wept in his jail  
cell here today when his wife vis-  
ited him. It was a dramatic scene  
when the banker, who admitted de-  
frauding six New York banks of  
\$500,000 for the benefit of his own  
depositors, was greeted by the moth-  
erly woman whose eyes were swollen  
from sleepless nights.

## ALIEN LAND LAW UNDER ASSAULT

California Delta Farms, Inc.,  
Files Appeal

San Joaquin Tract Sale to  
Chinese Set Aside

Supreme Court Asked to Pass  
on Constitutionality

WASHINGTON, Sept. 12. (Ex-  
clusive)—The California Delta Farms, Inc.,  
owning land in San Joaquin county,  
today filed an appeal in the Supreme  
Court attacking the validity of the  
California Alien Land Law as in-  
terpreted by the lower courts in con-  
nection with a sale of land to the  
Chinese-American Farms, Inc.

In August, 1919, the California  
Delta Farms, Inc., sold the land to  
C. C. Wing, who transferred the  
contract to the Chinese-American  
Farms, Inc., which made payments  
of installments on the purchase  
until January, 1922, when the pay-  
ments were stopped.

The lower courts sustained the  
position taken by the Chinese-  
American Company and ordered the  
return of the money. The Califor-  
nia Delta Company, in its appeal,  
takes the position that if the alien  
land laws enacted in 1930 have the  
effect of cancelling a contract legal  
when made in 1919 prior to its en-  
actment, it is unconstitutional.

After the first embrace, Waggoner  
asked for his son: "Where is De-  
los?"

"He stayed in Denver, honey,  
thinking he could do more good for  
you there," Mrs. Waggoner replied.  
Not until then did Waggoner  
break down. The stoic calm which  
he maintained since his arrest here  
Tuesday night snapped and tears  
flooded his eyes.

After the visit in the cell Mrs.  
Waggoner remarked to Sheriff How-  
ell: "Oh, why did he do it? He's  
always been a good husband, a fine  
man who commanded the respect  
of everyone. He must have been  
out of his mind if he did all the  
terrible things the newspapers say  
about him. I can't believe it."

After inspection of the \$78-a-  
month apartment the two mothers  
and the young lady who will be-  
come Mrs. Coolidge on the 23rd inst.  
went to a furniture store and looked  
at various pieces that might be  
suitable for the apartment. Noth-  
ing definite was selected.

Mrs. Coolidge has been visiting  
the Governor's home at Plainville  
since Tuesday.

## COUNT REVEALS SELF AS DUKE

Sichotaky, Awaiting Deportation,  
Says He's Alexander N. Romanoff of Russia

NEW YORK, Sept. 12. (Ex-  
clusive)—"Count" Albert Sichotaky,  
circus acrobat, globe-trotting  
adventurer and bunco man, revealed  
himself as the Grand Duke Alexander  
Nicholas Romanoff of Russia today  
when in the custody of a guard he was  
permitted temporarily to leave Ellis  
Island, where he has been held since  
June 28 for deportation as an  
undetectable alien.

Sichotaky, who has hung  
sensational charges of the theft of his  
fortune while he was a prisoner in  
Poleson penitentiary, by persons prom-  
inent in political and official circles in  
California, revealed to authorities his  
noble lineage with a show of reluctance.

MANILA, Sept. 12. (Ex-  
clusive)—Gen. Davis today flew to  
Infanta, on the western coast of Tay-  
abas Province, with Maj. Walter  
Kilmer to view the damage wrought  
there by last week's typhoon.

Latest estimates place the total  
loss of life in the stricken area at  
about 200 and the damage at  
\$1,000,000.

## BRITISH LABOR REIGN PRAISED

Palestine Mandate May be  
Dropped, Says Young

Former Foreign Office Man  
of London Speaks

Tells Chicago Session 'Aims  
for Jew-Arab Peace

CHICAGO, Sept. 12. (Ex-  
clusive)—Great Britain may surrender the  
Palestine mandate to keep peace be-  
tween the Jews and Arabs, George  
Young, English diplomat, said to-  
day before a joint luncheon of the  
English Speaking Union and the  
Chicago Council of Foreign Relations.

Mr. Young, who has served for  
more than twenty years as a mem-  
ber of the British Foreign Office,  
and who recently conducted a  
round-table conference on post-war  
constitutional changes in Europe at  
the Institute of Economics, Wil-  
lamstown, Mass., discussed the pre-  
scent Labor government in England  
and predicted world harmony  
through its administration.

"The labor control of the British  
government will settle the present  
conflict in Palestine," he said. "La-  
bor is international, even though it  
is the minority. It seeks peace and  
will procure it at any cost. If a  
surrender of the Palestine mandate  
will assure peace between Jews and  
Arabs, the Labor party stands  
ready to make that sacrifice."

MANILA, Sept. 12. (Ex-  
clusive)—Gen. Davis today flew to  
Infanta, on the western coast of Tay-  
abas Province, with Maj. Walter  
Kilmer to view the damage wrought  
there by last week's typhoon.

Latest estimates place the total  
loss of life in the stricken area at  
about 200 and the damage at  
\$1,000,000.

## TROLLEY STRIKE TURMOIL GROWS

Workers' Rejection of Pact Hit and Defended  
Investigation Asked of Tear Gas Bomb Throwing  
New Orleans Cars Run But Patrons Scared Away

NEW ORLEANS, Sept. 12. (AP)—The New Orleans street car strike today entered the tenth week while officials sought to piece together the loose ends of the settlement controversy.  
The striking conductors and motormen rejected by a vote of 1009 to 87 the settlement agreement drafted by William Green, president of the American Federation of Labor, and A. B. Patterson, vice-president of the New Orleans public service, at a conference in New York. The agreement also was approved by W. D. Mahon, president of the Amalgamated Association of Street and Electric Railway Employees.  
NEW VOTE SOUGHT  
At Indianapolis Mr. Green said the rejection of the agreement was due to a "misunderstanding" and from Seattle came word that Mr. Mahon regards the negative vote of the men as a "serious mistake" and that he will seek to have the vote reconsidered.  
Local union officials asserted that neither Mr. Green nor Mr. Mahon has the true facts of the local situation, which was aggravated by the refusal of public service officials to give the union any assurances that the strikers will be taken back to work. The clause in the agreement, the union officials said, did not bind the company to re-employ the men and they have reason to believe that about 400 of the former employees never would be reinstated.  
In a telegram today to Mr. Mahon in response to a telegraphic query, Mr. Patterson said:  
"Subject to prompt acceptance of the agreement by your association, a large number of men can be returned to work immediately, the others as fast as conditions will permit."

## BOMB INQUIRY ASKED

Acting Mayor Whitney today demanded an investigation into the throwing of tear gas bombs by police and deputy marshals last night when a crowd gathered around a dynamite case. Mr. Whitney said he was in the crowd, which was orderly and peaceful, and that he would have been arrested if some one had not told the deputy marshal he is the acting Mayor.  
Police Superintendent Ray told the commission council he will conduct an inquiry and direct the police not to use the tear bombs except to break up riotous crowds.  
Today passed quietly, the street cars operating on schedule, but the placing of dynamite on the tracks last night frightened many patrons away.

Extra Hour  
Secure Every  
Working Day  
is ten-day test to see  
it's worth having.

You'll notice the difference  
the first evening.  
Meanwhile, your family has  
the use of your car all day.  
Give them this added hap-  
piness.  
And consider the economy.  
With new Monthly Passes or  
commutation books, fares are  
only a fraction over a penny  
a mile. Figure your own sav-  
ing here and on parking fees  
over a period of a single  
month.  
Phone Pacific Electric to-  
day to find out how schedules  
to Los Angeles fit your needs.  
Then start a ten-day test to-  
morrow. Learn for yourself  
why more and more people  
are finding the Red Cars the  
most practical, carefree and  
yet economical means of  
daily travel.

Novelty! Variety!  
in Fall Neckwear

Colorists and designers of neck-  
wear have created a veritable  
Mardi-Gras in new patterns and  
shades for fall.  
Colorful and original combina-  
tions have been developed, yet  
they keep step with the fashion for  
more restrained effects.  
In imported and domestic silks, the  
Spitalfields, Grenadines, Warp  
Prints, and Italian Twills, with all-  
over figure effects, pin dot jac-  
quards, English cluster stripes, and  
Caigmoor heathers \$1.50 to \$5  
are the style leaders.

THE  
AMERICAN  
RHYTHM  
The music and song of America—written by Americans  
for Americans—reflecting the colorful and varied life  
of our cosmopolitan people—selections chosen for their  
sparkling originality, their interpretations of the tem-  
perament and musical standards of our nation which  
distinguish it from every other—presented tonight in  
Forest Lawn's thirty-fifth radio broadcast. "Always some-  
thing new and interesting in a Forest Lawn program."

Tonight » » KHJ « « 8 to 9

JUST as America's music has been builded upon the  
forms created by Old World nations, so has the art  
of the New World received its inspiration from the sublime  
achievements of European masters. Nowhere is this more  
evident than in Forest Lawn Memorial-Park, where for the  
people of all America there has been collected originals  
and replicas and pictures in stained glass—a collection  
which is steadily being augmented through the acquisition  
of new works from the hands of internationally renowned  
artists. The genius of all times has contributed to make  
of Forest Lawn a memorial to Love, to Beauty, to Memory  
and to Life Everlasting.

A beautifully illustrated Art Book, "Chimes," descriptive of  
the works of art in Forest Lawn, may be obtained by send-  
ing 25 cents to partially cover printing cost. A very hand-  
some, "The Book About Burial Customs and Cost," will  
be sent free on request.

# FAST AIR LINE BEING PLANNED

## NOTICIAS MUNDIALES DE ULTIMA HORA

### NOTAS TELEGRAFICAS

Twenty-Hour Coast-Chicago  
Service Promised  
Start Set for Next Month  
by Boeing System  
San Francisco Will be  
Western Terminal

CHICAGO, Sept. 12. (Exclusive)—Twenty-hour airplane passenger service between Chicago and San Francisco will be inaugurated next month. Announcement of plans for the new service were made today by K. K. Knickerbocker, Chicago manager of the Boeing System, on the arrival here of the first of the fleet of new Boeing trimotored eighteen-passenger air liners which will be used in the service.

The Chicago-San Francisco passenger service is the first and largest unit in an all-airplane coast-to-coast service planned by United Aircraft and Transport Corporation, of which the Boeing system is a subsidiary. It will be the first all-plane service between the Great Lakes and the Pacific Coast and the first American air line to fly passengers at night.

According to the tentative sched-  
ule, passengers will leave Chicago at 8 a.m. and arrive at San Francisco at 4:30 a.m., Pacific time, the following morning. Eastbound planes will leave Oakland Airport, across the bay from San Francisco, at 8 p.m., and arrive here at 8 p.m. the following evening. In operating the Chicago-San Francisco line the Boeing company will fly one transport in each direction between Chicago and San Francisco and between Chicago and Cheyenne, this necessitating only one change for passengers on the 3000-mile flight.

**Lost Canadian  
Flyer Rescued**  
THE PAS Ocan. (Can.) Sept. 12. (P)—Lost for eighteen days in the wilds of Northern Manitoba after his plane was forced down by lack of fuel, C. F. Mear, youthful air-  
man, was rescued safely in Thicket Portage tonight.

He was rescued last night about thirty miles west of Oxford House, for which he was heading, by V. Partridge, a fellow-aviator who sighted him from the air.

His clothes in tatters from scrambling through thick brush, Mear had covered more than 100 miles, living principally on berries.

**VICTIM OF PHOENIX  
BANDIT NEAR DEATH**  
PHOENIX, Sept. 12. (P)—Slugged by a bandit when he failed to respond quickly to an order to get out of his car when two hold-up men leaped on the running board near the Arizona Canal, Joseph Waddell, 34 years of age, Yuma business man, lies at the home of a friend here with a possible fractured skull.

**NOTAS LOCALES**  
Los McJannet Celebrarán Aquí su Independencia  
El aniversario de la independencia mejicana, que el próximo lunes será observado debidamente en toda la república vecina nuestra, será también celebrado en esta ciudad, y a ese efecto se tiene preparado un animado programa, que empezará a desarrollarse desde mañana en la noche, en la Casa de Vecindad, sita en el 1320 de calle de Wilcox.

Enfrente del edificio dará un concierto alusivo una banda juvenil de organillos de boca, cuyos miembros pertenecen al Pato de Resaca de la calle Pecan. La señorita Trinidad Oñel, con sus alumnas, presentará una serie de bailes naciona-  
les.

Durante la noche venderán dulces y platillos mejicanos unas mujeres de la vecindad vestidas con trajes de su país. El programa ha sido encomendado a la señorita Nellie Foster.

**Charles Infantiles para Chiquillos de Escuela**  
Prescott escribió bellas historias. Canduo era niño, un condiscipulo le tiro con una corteza de pan, y dio en el ojo. Quedose casi ciego. (Prescott wrote beautiful his-  
tories. When Prescott was a boy, a school-mate threw a crust of bread at him. It hit him in the eye. He became almost blind.)

Tenia que hacer sus escritos con una máquina, de las que se hacían para uso de los ciegos, pues no había máquinas de escribir en aque-  
llos días. (He had to do his writing with a machine. This machine was made for the use of the blind. There were no typewriters in those days.)

Era un duro trabajo el escribir historias sin tener buena vista; pero Prescott no se dio por vencido. Tenia un hombre que le leía. Tardó diez años en escribir su primer li-  
bro. (It was hard work to write his-  
tory without good eyes. But Pres-  
cott did not give up. He had a man to read to him. It took him ten years to write his first book.)

**ONE KILLED, ONE HURT  
IN FALL OF AIRPLANE**  
HADDON FIELD (N. J.) Sept. 12. (P)—One was killed, and another injured seriously today in an air-  
plane crash near the Redell air-  
field at Locustwood. The victim was Agnew P. Smith, 38 years of age, of Merchantville, N. J., a passenger. Louis Holmes, 21, the pilot, suffered severe injuries.

# DECLINE IN RAISIN CROP ESTIMATED

California Yield Set at  
1,000,000 Tons and Table  
Product at 350,000 Tons

SACRAMENTO, Sept. 12. (P)—The crop of California raisin grapes (fresh base) for the current season was estimated by the Federal-State crop reporting bureau today to total 1,000,000 tons or 1 per cent less than the estimate of one month ago. The total produc-  
tion of table grapes is expected to be about 350,000 tons, a decline of 11,000 tons compared with the August 1 report.

The crop reporting bureau stated it has made no forecast of the 1929 dried raisin crop and added that "obviously no such forecast can be made until the grower has determined whether or not he will dry his raisin grapes or ship them fresh."

"All information, however, points to a dried crop considerably under that of 1928," the bureau said. "For comparison there were utilized for drying from the 1928 crop 1,044,000 tons, (drying ratio 4-1) 261,000 tons marketed fresh and 60,000 tons not harvested. Thompson seedless grapes are now being picked for drying. In spite of the lateness of

# LAURA LEE PLANS FIGHT FOR ESTATE

Actress Consults Lawyer  
on Contest for Share of  
Perlin Fortune

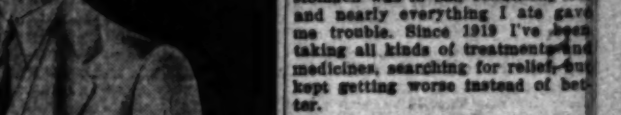

SAN FRANCISCO, Sept. 12. (Ex-  
clusive)—Laura Lee Young, Holly-  
wood motion-picture actress known as Laura Lee, plans a contest to de-  
termine if she can share in the \$100,000 estate of her father, Samuel A. Perlin, Oakland theater owner, it was learned tonight.

Whether the contest will material-  
ize depends to a large extent on Su-  
preme Court interpretations of the  
California laws governing distribu-  
tion of intestate properties where  
more than one widow is involved.

Attorney Nat Schmulowitz, legal  
partner of the late Gavin McNab,  
admitted tonight Miss Lee came up  
from Los Angeles to consult him to-  
day, but said he is not in a position  
to state yet what action will be in-  
stituted.

It was learned Perlin was mar-  
ried twice and was the father of  
two children by each wife. Miss  
Lee and a sister, now married and  
living in Los Angeles, are daugh-  
ters by the first wife. Perlin's sub-  
sequent marriage may invalidate  
any claim they may make to the  
estate, it was explained.

**She Had Spent  
Thousands in  
Health Quest**  
"Think of it—after all these  
years of suffering and spending  
thousands of dollars trying to get  
well, I found just the medicine I  
needed in Sargon, and I feel just  
grand."  
"It may sound unbelievable to  
say I took Sargon and discarded

MRS. IDA E. JOHNSON CLARKE  
my cane."—but that's exactly what  
this wonderful medicine did for  
me, and it seems almost like a mir-  
acle. I used to suffer so terribly  
with rheumatism I could hardly  
drag myself about, and if I got in  
one position, sitting down or ly-  
ing in bed, it was all I could do to  
get out of it. Every bone in my  
body seemed to ache and I was so  
weak I was almost helpless. My  
stomach was in bad condition, too,  
and nearly everything I ate gave  
me trouble. Since 1919 I've been  
taking all kinds of treatments and  
medicines, searching for relief, but  
kept getting worse instead of bet-  
ter.

"It's simply marvelous what  
Sargon and Sargon Soft Mass Pills  
have done for me. Nearly every  
trace of rheumatism is gone and  
I'm so much stronger. I can go out  
without my cane and get around  
like I did years ago. My stomach  
doesn't give me a bit of trouble  
now and my what a relief it is to  
be able to sleep good again! The  
Pills are wonderful for constipa-  
tion and keep my whole system in  
healthy condition."

"I'll always bless the day I start-  
ed taking Sargon. It has been a  
godsend to me and I feel it a duty  
to help others by telling them  
about this splendid medicine."

The above grateful statement  
was made recently by Mrs. Ida E.  
Johnson Clarke, 4146 W. Main St.,  
Compton, Cal. Mrs. Clarke is a  
member of the Eastern Star and  
Daughters of Rebecca, and highly  
esteemed by a wide circle of  
friends.

A special Sargon representative  
is explaining the merits of this new  
medicine to hundreds of people  
daily at the Owl Drug Store, 6th  
& Broadway. Sargon may also be  
obtained at all Owl Drug Stores in  
Los Angeles and other cities—

Mr. Tait Concludes Christian  
Science Lectures

Discourse Given at  
Ninth Church

## Reflect Divinity

of Christian Science lectured with him on the situation. "Naturally the people were attracted to the lectures because of their own hearts," he felt that members of the church were "not doing for the best," and he felt that the church should be "reformed" and "renewed." He was a member of the Mother Church, First Church of Christ, Scientist, and was concluded by the lecture on the evening of Ninth month. Dr. Tull spoke in part as follows:

"The attraction of divine Spirit, Love, Love is the great impetus."

BOULEVARD STREET  
Making a business  
highly of Adam  
length was  
introduced in the  
yesterday. It was  
council's traffic and  
committee and the  
building and being

the Father-Mother, or as the Father-Creator, which, as divine Love, conveys all things. Thus the power of Love produces God's Son, or conception, of Him who is the offspring of divine attraction. Divine Love is the reason. One cannot divide divine love and wisdom between the attraction of divine Love and the attraction of divine Truth. The result to do is always the love-

**LOVE CREATIVE**

The attraction of divine Love, as creative; it conceives, produces or produces Love's quality; right ideas, the offspring of man's intelligence. This is a reflection of divine

ing, knowing, and the result is  
the inclusion of the universe, or the  
enjoying of creative Love.

And sometimes there is to be loving,  
and yet terrible, but we learn in  
higher science or else we learn  
from bitter experience that sin  
is no true pleasure, that its  
pleasures are not. And sin ap-  
pears to dwell in our hearts,  
including all evil, is the pro-  
duct of animal qualities the  
absence of real Love. Hence divine  
Love is the antidote for sin, and  
it is human problems and  
suffering that source of man-  
kind's enslavement.

# FOOD MACHINE IN EXPANSION

Former John Bean Company Buys Four Units

World Market Achieved by Florida Acquisition

Vernon Edler Concern Here Included in Deal

Food Machinery Corporation, formerly John Bean Manufacturing Company, has absorbed four concerns, three of which are located on the Pacific Coast and one in Florida, J. D. Crumsey, president, announced yesterday in a letter to stockholders including warrants in connection with the recent issue of rights.

The companies are: Outer Manufacturing Company of Portland, Ore.; the Florida Citrus Machinery Company of Dunsmuir, Fla.; Vernon Edler Corporation of Los Angeles and Roberts & Huntington of Anaheim.

All of these organizations are engaged in the manufacture and sale of lines either connected with or allied with products of the Food Machinery Corporation. Their acquisition, according to Mr. Crumsey, will increase the company's sales volume by more than \$1,500,000.

The purchases will be made on the basis of an exchange of stock that should materially increase the per-share earning power of our stock for the coming year, he said.

The 2 per cent stock dividend recently declared accruing to stockholders of record the 10th inst. will be payable October 1, Mr. Crumsey also announced.

The Outer Manufacturing Company started business in 1912 and has been the distributor of the "Bean" products in Southern California for a number of years and this company was also the owner of auto laundry patents.

The Roberts & Huntington concern has been engaged in the citrus industry in Southern California for a number of years and will be operated in conjunction with the Stebler-Parker Company.

## STOCK ISSUE IS AUTHORIZED

SAN FRANCISCO, Sept. 12. (Exclusive)—Food Machinery Corporation today was authorized by the State Corporation Department to issue \$2,400,000 of common stock for acquisition of two companies and to fulfill terms of a stock dividend and subscription rights recently voted by the directors.

Of the total issue authorized, 1140 shares will be exchanged for 22,540 shares of capital stock of the Vernon Edler Corporation, and 800 shares will be issued to stockholders of the company in exchange for the business and assets of Roberts & Huntington of Anaheim.

For the stock dividend the company has been authorized to issue 2625 shares and the balance, of 21,684 shares, will be issued to stockholders under the terms of the subscription privileges which are one share at \$40 for each six shares held.

Partners of Roberts & Huntington and the Vernon Edler Company will not participate in the stock dividend or subscription offer.

## LONDON RATE HOLDS

LONDON, Sept. 12. (Exclusive)—The minimum rate of discount of the Bank of England remained unchanged today at 5 1/2 per cent.

## SECURITIES LOAN TOTAL SETS MARK

New York Reserve Bank Reports Gain for Week of \$120,000,000

WASHINGTON, Sept. 12. (P.)—Loans to brokers and dealers held by New York Federal Reserve member banks for the week ending the 11th inst. were announced by the Federal Reserve Board today at \$4,614,000,000, representing an increase of \$120,000,000 as compared with the preceding week and establishing a new record for the fourth consecutive week.

The loans for the week ending September 12, 1930, totaled \$4,614,000,000. The detailed distribution of the loans over the three weeks dealt within the board's report was:

Sept. 11, 1930	Sept. 4, 1930	Sept. 12, 1930
\$4,494,000,000	\$4,494,000,000	\$4,614,000,000
\$4,494,000,000	\$4,494,000,000	\$4,614,000,000
\$4,494,000,000	\$4,494,000,000	\$4,614,000,000
\$4,494,000,000	\$4,494,000,000	\$4,614,000,000

Comparative weekly figures of brokers' loans with corresponding periods of last year follow:

Sept. 11, 1930	Sept. 4, 1930	Sept. 12, 1930
\$4,494,000,000	\$4,494,000,000	\$4,614,000,000
\$4,494,000,000	\$4,494,000,000	\$4,614,000,000
\$4,494,000,000	\$4,494,000,000	\$4,614,000,000
\$4,494,000,000	\$4,494,000,000	\$4,614,000,000

Having registered a steady increase since August, brokers' loans yesterday by sixty-six members of the Los Angeles Stock Exchange showed a sharp rise of \$2,353,600 to a total of \$4,614,000 for the week ended the 11th inst. The low for the year, \$3,158,568, was established August 7, while the high, \$4,774,335, was set on February 15.

## De Forest Sues Radio Concern

NEW YORK, Sept. 12. (Exclusive)—De Forest Radio Company has filed a claim for triple damages under the Clayton Act against the Radio Corporation of America in the United States District Court at Wilmington, Del. The claim is the outcome of the suit by De Forest Radio against R.C.A. charging violation of the Clayton Act.

The company's triple damage claim of \$2,000,000 and claims that R.C.A. in enforcing its receiving circuit license agreement made with a large group of radio manufacturers and distributors to handle only R.C.A. vacuum tubes in their radio sets, resulted in serious financial loss to vacuum tube manufacturers including De Forest.

## Treasury Head in Statement

WASHINGTON, Sept. 12. (P.)—Over-subscription by nearly \$1,000,000,000 of the \$500,000,000 Treasury certificates was attributed today by Secretary Mellon to the tax-exempt feature and the fact that the nine-month certificates provided temporary investments for idle funds.

The \$300,000,000 in cash the Treasury will receive from the certificates, plus the September income tax payments expected by Treasury officials to approximate \$500,000,000, is expected by the Treasury to care for the government's expenditures until December 15, next.

## Wolcott to Open Riverside Office

G. F. Wolcott & Co., stock and bond brokerage house, announced yesterday that it will open a fully equipped branch in Riverside, the 21st inst. to serve Riverside, Redlands and San Bernardino. Facilities and equipment on a par with Los Angeles brokerage houses are being installed so that traders will have the advantage of fast and accurate service.

The branch will be operated under the direction of E. F. Molting as resident manager. Mr. Molting was formerly manager of the investment department of the Southern California Edison Company in Riverside and San Bernardino counties.

## BANKS ALSO ENTER FIELD

Continental Illinois of Chicago Organizes Investment Trust; Giannini Institutions First

BY EARLE E. CROWE

Entrance of the influential and conservative Continental Illinois Bank and Trust Company, the Middle West's most outstanding bank, into the investment trust business is another surprising development in the fast-spreading ramifications of this popular movement in modern finance. Only a few of the large banks have gone into the organization of investment trusts, but there are possibilities now that the banks will rival the investment houses in setting up these vehicles for the investment of their own and the public's money.

Up to this time the Giannini-controlled banks have been the chief sponsors among the commercial banking institutions of investment trusts. The Bank of Italy was the first with its Bancalis Corporation, and then the Bankamerica-Banc Corporation, subsidiary of the Bank of America of New York, came out recently with a new investment trust and trading corporation. Following this venture, the Transamerica Corporation, holding company for all the Giannini enterprises, organized the Intercoast Trading Company to deal in Pacific Coast securities.

## ASSETS OF CALIFORNIA BANKS GAIN

State Group Reported as Showing Increase Over 1928 of \$6,000,000

SAN FRANCISCO, Sept. 12. (P.)—Combined assets of all California banks as of Sept. 11, 1930, were \$1,747,885,000 on June 29, 1929, Will C. Wood, State Superintendent of Banks, announced today. This figure represented an increase of nearly \$6,000,000 over the total for the same banks on March 27, 1929.

Gross deposits of all State banks show an increase of \$7,488,000 during the same period. Wood said, this being due entirely to deposits other than those of individuals.

As appearing in the figures, a whole decrease of \$1,583,000 since the March statement. Wood said, but cash resources showed an increase of \$18,671,000.

Wood pointed out that the most significant increases in assets, individual deposits, and cash resources occurred in the group of banks reporting outside the San Francisco and Los Angeles areas. These banks, he reported, which account for about one-fourth of the resources of all State banks, showed a growth during the three months of \$12,000,000 in assets, and in cash resources a growth equal to that of the State as a whole.

"Taking the State as a whole," Wood said, "the condition of the banks is entirely satisfactory. State banks show an increase in gross deposits and resources. The general financial situation which has prevailed in the nation as a whole, and the diversion of funds from the usual uses of inter-bank transactions and deposits to the call-money market, is visible in California banks also."

## Hancock Sales Set New Record

Hancock Oil Company during August set a new monthly gallonage record when the sales were in excess of 4,000,000 gallons as compared with the average monthly output of 3,200,000 gallons for the second quarter. Will J. Reid, president, stated yesterday. He added all indications point toward a good showing for the current quarter.

At the regular directors' meeting last Wednesday, dividends on the old stock for the period to the 1st inst. will be declared payable, Mr. Reid said. The new company took over the former organization on the first of the month. At the time the reorganization plan was announced, it was stated that it was the intention to place the new stock on a 7 per cent basis or \$1.75 annually. The board is not expected to take formal action in this matter, however, until October, in conformity with legal requirements, Mr. Reid said.

## Standard Aero Traffic Gains

With a total of 3143 passengers for August, the Standard Airlines, Inc., subsidiary of Aero Corporation, showed an increase of 92.3 per cent over the number of passengers carried in July, while the passenger and express revenue during the month gained 78 per cent, according to a statement released yesterday by the company.

F. T. Williams, traffic manager of the Standard Air Lines, stated that the company's statistics for August revealed a 46 per cent increase in through mail service.

With the addition of the new Fokker planes on the lines on August 4, last, the seating capacity was doubled.

## TWO MEMBERS ADDED TO AIRPLANE BOARD

Election of James H. Davis, president of Investment Securities of America, Inc., and Charles Jones, general manager of the same company, to the board of directors of the Maximum Safety Airplane Company was formally announced yesterday by James McDonnell, president for the absorption of the Maximum Company by the General Aircraft & Finance Co., now being organized as recently reported, are expected to be completed shortly, it was stated.

## CONTINENTAL MOTORS TESTS PLANE ENGINE

DETROIT, Sept. 12. (Exclusive)—Continental Motors Corporation has successfully tested its new 160-horsepower radial aircraft engine, C. P. Russell, aeronautical sales manager, announced today. "We have no intention of entering into the manufacture of aircraft," said Mr. Russell, "as our business is to build engines."

## KREUTZER CONTROL IN NEW HANDS

Board Reorganized With Howard Throckmorton as President

Acquisition of the controlling interest in the Joseph Kreutzer Corporation by Howard Throckmorton, president of the Valley Portland Cement Company, and the reorganization of the board of directors of the corporation was announced yesterday. Mr. Throckmorton stated that the services of the group who controlled the development of the Kreutzer Tri-Motor Air Coach was being retained and at the same time he was adding several nationally known executives.

Joseph Kreutzer, former president, is chairman of the new board of directors while Mr. Throckmorton is president and treasurer. Other officers and directors include: Milton Jones, vice-president; C. W. Williams, secretary; and Nathan Newby and J. C. Howard, directors.

Mr. Throckmorton has been identified with several financial reorganization enterprises, being known on the Pacific Coast for his work in connection with the People's Water Company of Oakland, now the East Bay Water Company and he was also one of the group which effected the reorganization and strengthening of the Oakland Traction and Key Route systems and the Market Street Railway in San Francisco, it was stated.

Mr. Jones was connected with the new organization of Harvey Park & Sons of New York. Mr. Newby is a director of the Seaboard National Bank. Both Mr. Howard and Mr. Williams were associated with Mr. Kreutzer in the development of the Kreutzer Air Coach.

## Total Value of Listed Stocks on Marts High

There are thirty stock exchanges in operation throughout the United States, and their combined listed securities have an approximate value of \$117,000,000,000. That is the estimate of H. E. Hicks, former Utah commissioner of corporations, who, chairman of the National Security Association's committee on stock exchanges, is touring the country in the interests of a report on the exchange situation. He stopped in Los Angeles yesterday on his way to San Francisco, where he will complete a report on the Bay City exchange.

In addition to the listed securities there are of record about \$3,000,000,000 in seasoned and seasoned securities that are not listed on any exchange. These Mr. Hicks said, consist very largely of the securities of banks and trust companies and close corporations.

The committee he represents, the chairman declared, will continue during the coming year to pursue a most active campaign of investigation, and then outline a national policy in relation to stock manipulation.

"I have found," said Mr. Hicks, "that most of the larger exchanges are using every effort toward abolishing unfair practices among their members. Therefore, I believe we can anticipate materially improved conditions next year."

## SAN FRANCISCO

SAN FRANCISCO, Sept. 12. (P.)—Trading on the San Francisco market today was all sessions the low-bracket market, with the industrial group, to the detriment of the financial group, showing a general decline. The market was characterized by a general decline in the industrial group, to the detriment of the financial group, showing a general decline.

Continental Motors Corporation has successfully tested its new 160-horsepower radial aircraft engine, C. P. Russell, aeronautical sales manager, announced today. "We have no intention of entering into the manufacture of aircraft," said Mr. Russell, "as our business is to build engines."

## HOPEFUL ECONOMIC STRAW

Heavy Demand for Treasury Offering Held to Show Money and Credit Supply Abundant

BY JOHN F. SINCLAIR

(Copyright, 1930, by North American Newspaper Alliance.) NEW YORK, Sept. 12.—When Secretary Mellon announced that the \$500,000,000 Treasury certificates of indebtedness, to be dated Monday, the 16th inst., and to run for nine months, were almost three times over-subscribed it showed again that there is still plenty of money and credit in the country.

Think of subscriptions totaling \$1,486,000,000! Without any blast of trumpets or high pressure publicity, this was the total sent into the twelve Federal Reserve Banks.

In a twenty-three line announcement from the Treasury on Wednesday last, the Secretary announced that all subscriptions in amounts not exceeding \$1000 from any subscriber will be allotted in full, and that the other allocations will be as follows: Seventy per cent to subscribers for that amount to 50 per cent to those who asked for over \$50,000 to \$100,000; 30 per cent to those who wanted over \$100,000 to \$1,000,000, and 15 per cent to those who subscribed for more than \$1,000,000.

In other words, if a bank, with \$50,000 to invest, sent in a subscription for that amount to 50 per cent to those who asked for over \$50,000 to \$100,000; 30 per cent to those who wanted over \$100,000 to \$1,000,000, and 15 per cent to those who subscribed for more than \$1,000,000.

Such a policy by the New York Stock Exchange will help clarify a very confusing situation.

## NORTH AMERICAN CAR OFFERS STOCK RIGHTS

CHICAGO, Sept. 12. (Exclusive)—Directors of the North American Car Corporation voted today to offer stockholders of record the 30th inst. the right to purchase one share of no-par common stock at \$42.50 for each ten shares of preferred or common stock held. The rights will expire October 8, next.

While the North American Car Corporation is not a public company, it is a corporation of Illinois, and its stock is listed on the New York Stock Exchange.

The rights will expire October 8, next.

Should stock dividends be included

At current quotations, we recommend the purchase of

## American Equities Company Common Stock

Listed on New York Curb Chicago Stock Exchange Boston Stock Exchange

THE recent offering of this investment company stock was rapidly and heavily oversubscribed, and it has now advanced above the original offering price. At current quotations it affords an excellent opportunity for enhancement in value. We recommend it to be bought and held so that the purchaser may benefit to the full from this company's investments in growing enterprises.

A few days ago acquisition, through a wholly owned subsidiary, of the San Jose Water Works was announced. Further announcements are expected regarding the Company's acquisition of important interests in additional valuable and promising properties.

## WE RECOMMEND

## Convertible Securities

for maximum profit and minimum risk

CONVERTIBLE bonds and preferred stocks have a decided appeal for shrewd investors seeking values—for those who desire a liberal fixed income with participation in stock profits. In fact, by investing in convertible bonds, the cautious investor stands a chance of making one-quarter to one-half the profits available to the common stock purchaser at a very small percentage of the risk.

The past record of convertible securities has been one of large profits to holders. This is substantiated by a recent statistical check of all convertible bonds listed on the New York Stock Exchange, which indicates a return of 10% to 15% to the investor diversifying among the offerings in this field.

It does not follow, however, that convertible securities should be purchased indiscriminately. Commitments should be made only after careful investigation. There are a group of three convertible bonds and preferred stocks which we selected after searching investigation among the offerings in this field.

The Company is a group and acts as its affiliated company

NEW ISSUE

\$50,000,000

Shell Union Oil Corporation

Five Per Cent. Sinking Fund Gold Debentures Due 1949

Each Debenture will carry a warrant for the purchase, at any time on or before October 1, 1939, of 25 shares of Common Stock of the Corporation at \$35 per share. Warrants will be non-detachable except when exercised or in event of redemption of the appurtenant Debentures, and will be void after October 1, 1939. Provision will be made for protection of the warrant privilege in event of a split-up or other re-classification of the Common Stock or of the issuance of additional shares thereof either as a stock dividend or for cash at less than \$35 per share (except that 1,333,334 shares reserved for conversion of certain outstanding Preferred Stock may be issued on or before July 1, 1932 at \$30 per share.)

Dated October 1, 1929 Due October 1, 1949

Authorized and now to be issued \$50,000,000. Principal and interest payable at offices of Lee, Higginson & Co., in Chicago, New York and Boston. Callable on 30 days' notice at a whole or in part on any interest date, prior to October 1, 1934 at 103 and interest, on October 1, 1934 and thereafter prior to October 1, 1939 at 102 and interest, on October 1, 1939 and thereafter prior to October 1, 1944 at 101 and interest, on October 1, 1944 and thereafter prior to maturity at 100% and interest.

Sinking Fund commencing October 1, 1934 will be at a rate sufficient to retire 45 per cent of the issue by maturity.

Capitalization

of Shell Union Oil Corporation and subsidiary companies (to be outstanding in hands of public upon completion of present financing.)

Table showing capitalization details: Funded Debt (Five Per Cent. Sinking Fund Gold Debentures, due October 1, 1949, (this issue), \$50,000,000; Twenty-Year 5% Sinking Fund Gold Debentures, due May 1, 1947, 48,047,000; Shell Pipe Line Corporation 5% Sinking Fund Gold Debentures, due November 1, 1952, guaranteed by Shell Union Oil Corporation, 29,177,500 \$127,224,500; Capital Stock: 5 1/2% Cumulative Convertible Preferred Stock, par value \$100, 40,000,000; Common Stock, no par value, (authorized 20,000,000 Shares), 13,066,336 shares.

The following is summarized from information submitted to us by the Corporation:

BUSINESS: Shell Union Oil Corporation, organized in 1922 as a consolidation of substantially the entire Royal Dutch-Shell and Union Oil Company of Delaware interests in the Mid-Continent and California fields, is, through its subsidiaries, one of the largest producing, refining and marketing companies in the oil industry of the United States. Through its subsidiary companies, the Corporation owns and operates oil properties having a net daily production of approximately 135,000 barrels, and in 1928 a net annual production of 47,788,000 barrels; has refineries in California, in the Houston and New Orleans districts on the Gulf Coast, in the Mid-Continent field, at Wood River near St. Louis and at East Chicago, with a combined capacity of 290,000 barrels of crude petroleum a day and a total intake of 53,536,000 barrels during 1928; owns or controls trunk and main pipe lines aggregating 3,570 miles; and has concrete and steel storage capacity together amounting to more than 34,000,000 barrels. Sales in 1928 were in excess of \$179,000,000.

PURPOSE OF ISSUE: Proceeds of this issue will provide funds for additions to and the further development of the Corporation's properties, more particularly its marketing facilities, and for general corporate purposes.

ASSETS: Net assets based on consolidated balance sheet as at June 30, 1929, adjusted to give effect to the issuance of the securities now to be outstanding, after deducting all liabilities other than funded debt, are \$437,524,296 or more than 343% of the Corporation's total funded debt now to be outstanding. Total current assets of \$158,468,298 are more than 5 1/2 times total current liabilities of \$26,423,854.

EARNINGS: For the year ended December 31, 1928, consolidated net earnings, after depreciation, depletion and drilling charges (amounting to \$44,012,082) and before Federal Income Taxes, available for interest, were \$25,409,507 or approximately 4 times the \$6,361,225 interest requirement on total funded debt. For the 5 1/2 years ended June 30, 1929, average annual consolidated net earnings after depreciation, depletion and drilling charges and before Federal Income Taxes, available for interest, were \$25,536,832 or approximately 4 times this requirement. For the 6 months ended June 30, 1929, such consolidated net earnings were \$11,466,452, substantially in excess of those for the corresponding period of 1928.

EQUITY: Preferred and Common Stocks of the Corporation representing the equity following the funded debt have an indicated market value at present quotations of more than \$400,000,000.

Application will be made to list these Debentures on the New York Stock Exchange

PRICE 100 AND ACCRUED INTEREST, YIELDING 5%

Debentures and Warrants offered when, as and if issued and received by us and subject to the approval of counsel. It is expected that delivery in the form of interim receipts with subscription warrants attached will be made on or about October 1, 1929.

Are You Profiting by Today's Opportunity?

AT NO time for a number of years has the investor enjoyed a better opportunity for obtaining a very high degree of security with a liberal yield. It is impossible to foretell how long this situation may continue. But we do know that the man who selects wisely today is assuring for himself in the future an income higher than has been obtainable with similar dependability for a number of years.

An outstanding example of a high-grade security selling on a liberal yield basis is to be found in CALIFORNIA GROUP CORPORATION 6% Cumulative Preferred Stock, priced at 90 and accrued dividend, to yield 6.12%.

The Company is an important unit of the California Bank Group and acts as a holding company for that institution and its affiliated companies.

We invite your inquiries regarding this issue and shall be pleased to furnish detailed circular.

## Crop Outlook in Argentine Boosts Wheat

CHICAGO, Sept. 12. (AP)—Assessing that virtually half of the 1929 Argentine wheat crop will be sold in the United States, wheat prices here today were boosted by a report that the Argentine government had agreed to sell 100,000 tons of wheat to the United States at a price of \$1.10 per bushel. The report came from a reliable source in Buenos Aires and was based on a report from the Argentine government that it had agreed to sell 100,000 tons of wheat to the United States at a price of \$1.10 per bushel. The report came from a reliable source in Buenos Aires and was based on a report from the Argentine government that it had agreed to sell 100,000 tons of wheat to the United States at a price of \$1.10 per bushel.

### LOS ANGELES EXCHANGE

General Depression Cuts Recent Profits on Local Market as Bears Gain Upper Hand

Popular issues, which lately have featured the market with a steady advance into new high ground, bore the brunt of a bear attack that swept through the Los Angeles Stock Exchange yesterday and wiped out a portion of the recent paper profits. Selling resistance, however, was of sufficient strength to hold the falling price level to within a range of two points.

### LOS ANGELES CURB

With the volume of trading sharply restricted, a technical reaction developed in yesterday's trading on the Los Angeles Curb Exchange as traders manifested the customary uneasiness arising from a substantial increase in brokers' loans and a general irregularity of the New York market.

## BULL MONTANA TOSSED FOR FALL BY WIDOW

Mrs. Mary M. Poulson and Bull Montana

Bull Montana, film actor and wrestler, learned a new hold, the heartlock, developed yesterday, as he led Mrs. Mary Matthews Poulson, comely blond widow, to the marriage altar. The future Mrs. Montana was tossed for a fall by her husband, who was a great favorite of the crowd.

Bull, however, is doing well in the talkies, and to that form of art he intends to devote himself. "I make that terrible noise," he said. "When they book a picture as a 'sound feature,' I'm the sound."

The couple would not divulge the time and place of their marriage, but the bride-to-be admitted her romance was an idyllic one. "You wouldn't think he would be capable of a great love worthy of the best traditions of the screen—but he is, and some day, he'll take a leading part in a great big film epic—you'll see."

Bull and his bride-to-be will be posing for pictures, illustrating the "heartlock." "If we were down on the beach, I would show you the hold," Bull commented, as the flashlights flashed.

Bull Montana, film actor and wrestler, learned a new hold, the heartlock, developed yesterday, as he led Mrs. Mary Matthews Poulson, comely blond widow, to the marriage altar.

## VENTURA OPENS COLORFUL FAIR

Old-time Features Enhance County Exhibition

Past Glories Intertwined With Achievements

Luster Added by Automobile and Stock Shows

BY BURTON L. SMITH  
("Times" Staff Representative)  
VENTURA, Sept. 12.—Ventura county's sixteenth annual fair opened today. For the sixteenth time Seaside Park, the fair ground on the sea, provided a setting for an agricultural exhibit that is abreast of the spirit of the times and at the same time filled with entertainment features which are cherished among the brightest recollections of childhood.

The popcorn, peanuts and pink lemonade which made the fairs of long ago the great successes which they were, contribute their part, and luster is added by the extensive automobile display and ultra-modern and most elaborate home show. A great poultry exhibit bids for approval along with one of the finest dog shows ever seen on the western coast.

Row after row of stock sheds are filled with prize-winning horses, cattle, sheep and goats. A special tent housing the display of the county's schools where advanced methods and modern equipment have made possible a showing of an educational nature far above anything seen in the same lines possible a few years ago.

Interest in the fair centers in the great horticulture tent, a stretch of canvas 600 by 130 feet, filled with the best efforts of the leaders in the various communities of this and other Southern California counties. Cities and towns of Ventura county have entered into a friendly rivalry in the showing of booths.

SPANISH PATIO  
The Chamber of Commerce of the county sets an example for all with its Spanish patio garden, in which a great variety of fruit and vegetables is displayed with great advantage. Santa Paula has an old Spanish ranch house with an architecturally controlled garden on the porch depicting a rancher of pioneer days preparing home-made food stuffs for the ranch kitchen. The foreground provides an extensive and artistic garden in which are growing specimens of all the fruits and vegetables for which this great agriculture county is noted.

A painted background depicting the county's great resources provide a wonderful and extensive display of the county's great resources. A pyramid of citrus fruit surrounded by green vegetables is Piru's contribution to the show.

LOS ANGELES COUNTY  
Of all the outside displays the unanimous opinion of the thousands of first-day visitors was to the effect that Los Angeles county had entered a display which for artistic effect and advertising value equaled all the others. Here the mission effect has been used to its very best advantage and under the three great arches of the display, the backgrounds depicting the new City Hall, the beaches and the public parks in the foreground the products of the annual fair are displayed in a most artistic and effective manner.

San Bernardino county has a dog show, advertising the advantages of the county and calling attention to the annual exhibit of the National Orange Show. Their display consists of a revolving platform erected under a pagoda of golden fruit.

## They'll Fly for New Records

Lucille Wallingford and Peggy Paxson

The world's first women's refueling airplane flight will take place over Los Angeles next week when Peggy Paxson, 17 years of age, and her 19-year-old flying partner, Lucille Wallingford, leave the ground from the Lincoln Airline field in a light plane.

Meanwhile Bobbie Trout, one of the few women transport pilots in the country and a participant in the Santa Monica-Cleveland air derby, is rushing arrangements for another endurance attempt at Los Angeles.

Both girls have been flying six months and expect to hold limited commercial transport licenses before they go aloft. They are busy flying to fulfill the Department of Commerce requirement of fifty solo hours for a license.

Miss Paxson is the daughter of W. Paxson, local representative of Pratt-Whitney airplane motor, and resides at 1723 Longwood avenue, while Miss Wallingford resides at 20 Guadalupe place, Redondo.

Reports that they will make the flight to reap a reward for induring cigarettes and other articles are untrue. Miss Paxson declared, "Whether of us smoke, we are going up to show the world that women are equal to men in the air."

SEVERAL AFTER FLIGHT  
Although Mrs. Louise M. Thaden of Pittsburgh, winner of the Cleveland air derby, was scheduled to be Miss Trout's flying companion, her husband refused to allow her to come here, telling her she had been away from home long enough, according to Miss Trout.

Several local girls, however, want to take Mrs. Thaden's place, and Miss Trout will select one within a few days. This pair will fly a Wright Whirlwind 225-horsepower J-4 motor. The ship is being especially built for the endurance trial. It has an open cockpit near the tail, but a roomy closed cabin forward in the fuselage. The Commercial Aircraft Corporation at Metropolitan is building the plane and expects to have it in the air within three weeks.

women in the several rings. From time to time a great army of women comes tumbling into the tent.

## WITNESSES AID MRS. PANTAGES

Four Deny Woman Drunk at Time of Death Crash

Defense Centers Its Fire on Drinking Charges

Garage Man Tells Story of Third Auto at Scene

With all their guns trained on the vital spots of the prosecution's case, built up by more than a score of witnesses against Mrs. Lois Pantages on trial before Superior Judge Hardy on a charge of murder, the defense went into action shortly before noon yesterday.

It took the state just a little less than six days and a half to present its case and it will require about the same length of time for the defense, according to counsel for Mrs. Pantages, who say they have another score of witnesses.

From the prosecution has come a story of a drunken, wild drive up one street and down another with Mrs. Pantages at the wheel of her automobile ending at Serrano avenue and Sunset Boulevard, when the millionaire's wife rammed an automobile driven by Joe Rokumoto and so seriously injured him that he died on the operating table.

CHARGES DENIED  
Four major defense witnesses testified yesterday and one by one they disputed the prosecution case. Point by point they denied certain portions of the testimony and unfolded a very different story than that presented by the state.

Further along in the afternoon more and more testimony was developed from the defense. The witnesses testified that Mrs. Pantages was not driving her automobile on the left side of Sunset Boulevard, while driving east by choice, but because her machine was crowded into that position by a mysterious car which sped away after the fatal accident.

STORIES CRUMBLE  
But the cross-examination of the defense witnesses went to the heart of the case, and as he hurried question after question at the man and women who testified for the defense, portions of their stories began to crumble, and before the afternoon was over the score for the day between defense and prosecution was fairly high.

At the close of the afternoon session yesterday John Contorno, owner of a gas station at Serrano and Sunset Boulevards, was on the witness stand under cross-examination. He had told a story so different from the run of prosecution witnesses that he had been the courtroom spectators gasping. After he had given his verbal account of what he said he saw of the fatal accident he illustrated with two tiny figures on a map of the city, the location of the fatal crash.

THE "OTHER CAR"  
"Two automobiles were going east on Sunset," he declared. "A large dark car driven by Mrs. Pantages was on the left side of the street. On the other side of her car in the center of the street was another large open car."

## The Lancer

by Harry Carr

HAVING pretty well mused up the Irish, our little Philippine prize fighters seem to have started in on the Indians. All that remain for their prowess are the Arabs and the soviet Russians.

FIGHTING RACES  
The fighting qualities of these little bouncing brown boys come, of course, from their Malay blood; and by all known theories the Malays shouldn't have any fighting blood.

NO MYSTERY  
The T.A.T. airplane disaster was plenty bad enough in all conscience; but I can't see what point there is in trying to surround the accident with a deep pall of mystery.

There isn't by any possible twist of circumstances the slightest mystery about it. George Rick, the flyer who passed over the scene, explained the first day everything that is known about it or is likely to be known. A flyer got confused in a storm and hit a mountain, and that's that.

INNOCECE  
One of the most touching examples of innocence cruelly misled by a mean man is the case of the shipbuilders now under investigation on account of the propaganda activities of William S. Bessner, the naval "expert." Apparently they just paid him some \$50,000 because he was a nice feller and they liked his necktie. How could they know he was peddling propaganda in favor of a huge cruiser contract from which they stood to make millions?

A FIEBLE  
All that the war in Manchuria is likely to amount to is considerable burned-up ammunition. In spite of their belligerency the Russian soldiers are not in a military position to undertake any very deep invasion of China; and nibbling around the edge isn't going to get them anything—except exercise.

CLUB WILL HEAR TWO  
There will be two speakers at today's luncheon of the Los Angeles Exchange Club at the Biltmore. W. J. Kennedy, president of the Kennedy Name Plate Company of Huntington Park, will speak on "Selling in Latin America" and Al Fridley of the Ringling Brothers and Barnum & Bailey Circus will talk on "The Other Side of Circus Time." Frank Pursell, baritone, and C. K. Sparks, accompanist, of the Security-Fire National Bank, will supply the entertainment program. Phil D. Quist of the Hamilton Shoe Company will be chairman of the day.

AUNT HET  
BY ROBERT GULLAN

"When Amy says nobody knows how she's suffered on account of John, she's just feelin' sorry for herself to keep from thinkin' how mean she was to him."

## FOX STUDIO BUILDINGS DEDICATED

Dr. Robert A. Millikan Has Part in Ceremonies at New Movie-tone Structures

Ceremonies for the dedication of the new \$100,000 Laboratory of Engineering Research Building at Fox Movietone City as well as a new cafe building on the large studio acreage were conducted yesterday in the presence of several hundred employees and visitors. The research building was dedicated by Dr. Robert A. Millikan, Pasadena scientist, and Lois Moran, film actress.

The new cafe building, erected at a cost of \$75,000 to serve employees and which is to be known as the Cafe de Paris, was dedicated by Phil Dorsey, French actress.

"I think it is a fine thing to have a research laboratory within the industry where the latest discoveries in pure science laboratories may be applied to the industry," Dr. Millikan declared.

He stressed the importance of such a laboratory and also told of the advance being made in the realm of sound. Miss Moran unveiled a plaque of Thomas A. Edison and Alexander Graham Bell. Henri Dido, French Consul, also spoke.

## DAVIS ASKED FOR REPORT ON PLUNDER

Police Commission Wants Details About Handling of Stolen Property

A full report on the disposition of stolen property recovered by the police was requested of Chief of Police Davis yesterday by the Police Commission on motion of Commissioner Drake as the result of the controversy recently over the rewards given five officers of the Wilshire division who recovered more than \$50,000 worth of jewelry obtained by Walter Deutach, Hollywood jeweler, now serving time in San Quentin for wholesale burglaries.

Chief Davis produced an order to the police department, issued January 1, 1928, providing that all such property be handled by the property clerk at Central station. He admitted that the Deutach plunder was retained and distributed to the owners at the Wilshire station, where the rewards, totaling \$1500, also were distributed.

J. A. O'Connor has presented a claim to the commission for a share in the rewards, but an opinion of the City Attorney's office holds that the commission has no jurisdiction over rewards.

Insley Urges  
Policemen be  
Given Rewards

Taking issue with former Police Commissioner Schweitzer's stand against rewarding police officers for work which is in their regular line of duty, former Police Commissioner Harry E. Insley yesterday advocated such rewards in a communication read to the Police Commission.

## FIREMEN INVESTIGATED

Charge Made of Drinking Brawls at Station and Use of Place for Bootlegging

An investigation of charges that members of the fire department from the station at 129 South Hope street have been engaged in drinking brawls and using the building for bootlegging purposes, was launched yesterday by Fire Chief Scott, he said last night.

No formal accusations have been made and often are caused by the jealousy that might exist between department commanders and their individual men.

## CIRCUS THRILLS THROGS ANEW

Young and Old Again Spellbound by Dazzling Array of Daring Performers and Jungle Denizens Gathered Under Greatest "Big Top"

"America's greatest"—the combined Ringling Brothers and Barnum & Bailey circus—lived up to its name when it opened to a wide-eyed audience of young and old at Washington and Hill streets yesterday afternoon for a four-day stay.

The big top alone, the largest in this country, is a sight to see. Then there is the animal tent, a large herd of elephants and other denizens of the jungle to be seen before the performance opens with the "mammoth parade and brilliant spectacle."

## SILVERWOOD'S STORE OPENS

Many Inspect Handsome New Branch on Wilshire; Free Circus Tomorrow for Boys

Thronged with admiring visitors from early morning until late in the evening, Silverwood's magnificent store at 5821 Wilshire Boulevard, opened its doors to the public yesterday, not to sell merchandise but to allow guests to inspect the establishment, the various departments of which were almost hidden behind gorgeous wreaths and bouquets sent by friends and business houses to congratulate the company upon its progress in the commercial world.

The store will be open for business today but the general reception to the public will continue until including tomorrow, from 9 a.m. to 9 p.m., closing with a free circus for boys and girls tomorrow on Burnside avenue, just across the street.

## Deer Hunters Warned Not to be Too Early

Don't go deer-hunting tomorrow or Sunday! That is the warning issued by County Forester Turner in directing attention to the fact that the hunting season does not open officially until Monday, the 16th inst.

Any persons guilty of pre-season shooting, Turner pointed out, is liable to a fine of \$500 or imprisonment for six months. The law allows each hunter two deer apiece. The season ends October 15, next. Hunting licenses are obtainable at sporting-goods stores.

KANGAROO COURT PLANNED  
A kangaroo court will be among the features at the annual fall picnic of the Oklahoma Society to be held in Baysmore Grove Park Sunday. The festivities will commence at 10 a.m.

## CLUB WILL HEAR TWO

There will be two speakers at today's luncheon of the Los Angeles Exchange Club at the Biltmore.

W. J. Kennedy, president of the Kennedy Name Plate Company of Huntington Park, will speak on "Selling in Latin America" and Al Fridley of the Ringling Brothers and Barnum & Bailey Circus will talk on "The Other Side of Circus Time."

Frank Pursell, baritone, and C. K. Sparks, accompanist, of the Security-Fire National Bank, will supply the entertainment program. Phil D. Quist of the Hamilton Shoe Company will be chairman of the day.

# Four Defense Witnesses Deny that Mrs. Pantages was Intoxicated

## DOCTOR HELPS WOMAN'S CASE

Shock Prevented Signs of Drinking, He Says

Sober Five Minutes Before Crash, Friend States

Garage Man Tells of Third Auto Near Crash

(Continued from First Page)

Woman on the grass between the curb and the street.

### REVIVED WOMAN

"I went to work on her and washed more than a pint of blood out of her mouth," declared the witness. "I gave her first aid and poured water into her mouth and over her head. At last I got her to breathing again."

And in Contorno's story liquor had no part. Prosecution witness after witness had testified before him that Mrs. Pantages was intoxicated and that her breath smelled of liquor.

"While working on Mrs. Pantages with my face less than a foot from hers I smelled no liquor," declared Contorno.

"Was Mrs. Pantages in your opinion intoxicated?" This question came from defense counsel.

"No. The woman was out, just out cold," replied Contorno.

It was during Contorno's cross-examination which was still under way at the close of the court day that Defense Counsel Gilbert got the opportunity to use two little toy automobiles he has been carrying around ever since the trial started.

As Prosecutor Costello led the witness all over his testimony Gilbert supplied the little automobiles and Contorno using the flat-topped rail in front of the jury box showed to the five women and seven men of the jury just what he was attempting to tell.

After Contorno went over his general story with Costello the real prosecution attack came.

### DENIAL ASSERTED

Under the searching questions hurled by Costello it developed that Contorno had several times denied to Dep. Dist. Atty. Jones that he knew anything about the accident or had even seen it. It also came out that he had told three Japanese lawyers that he had not seen the accident. Then he made the statement that he knew that fourteen or fifteen people claimed to have seen the accident but that he believed that he alone was an eyewitness.

Then in answer to questions propounded by Costello the witness said that five or six days after the accident he had been called on by Alexander Pantages, the defendant's husband, and had told him the whole story.

Then it developed that he had denied to Dep. Dist. Atty. Jones that he had told Pantages anything. And as Costello armed with a statement taken by the District Attorney's office shortly after the accident was getting ready to renew the attack on Contorno the day's session ended.

Just before court adjourned Judge

## They Dispute Charges of State

Two Important Defense Witnesses. Mrs. Bertha P. Jacobs, personal friend of accused, who said she left her five minutes before crash, and John Contorno, garage man, who tells of mystery car at scene of accident.

Hardy took a hand in the cross-examination and wanted to know from Contorno what had happened to the mysterious automobile which crowded Mrs. Pantages' machine into the left side of Sunset Boulevard.

"Well, that car didn't stop. It contained three people, one man and two women, or the other way around. It just kept on going and didn't stop for the accident." So did the witness explain the mystery of the second automobile which up to his testimony had gone unmentioned by a single witness.

### WAS WITH FRIEND

The mystery of where Mrs. Pantages had been before the fatal accident and which went unexplained during the prosecution case was settled, at least to the satisfaction of the defense, by the testimony of Mrs. Bertha P. Jacobs of 732 Lorraine Boulevard, a personal friend of the accused woman, who testified that she was with Mrs. Pantages up to a few moments before the accident.

Mrs. Jacobs went on the witness stand before Contorno was called and declared that she left the Pantages automobile at Western ave-

## DAHLIA SHOW ENDS TONIGHT

Plans Made to Accommodate Record Gathering; Splendid Array of Blooms Displayed

With the dahlia show scheduled to close tonight, officials of the Southern California Dahlia Society prepared for one of the largest gatherings of flower lovers in the history of the organization at the exhibition at the Biltmore today. Dahlias from all parts of Southern California are on exhibition. The exhibits are sponsored by flower lovers ranging from those with a backyard amateur status to the large commercial florists. The show opened yesterday.

The colors run from white and cream to the center of the ballroom, cream color of Blanca to the dark garnet of Tokyo. The choicest blooms from as far north as Santa Maria and Mill Valley and from all the country down to Santa Monica, Redondo, Bell, have been brought together.

Instead of looking down from the balconies on a gorgeous field of color, there is height and the blooms are placed high above the tables. Besides the dahlia one end of the foyer is given over to an exhibit of September roses.

### AMATEUR DISPLAY

The foyer was given over chiefly to amateurs, but the California amateur is almost a professional. There are blooms of June Court and a dower of white which is nearly the color of a Phlox gladiolus—grenadine pink. Others are shown by Frank Miller, John G. Burch, and a number of other amateurs. The show manager is Frank Miller and Fred McNabb is president of the dahlia society.

Other exhibits. A. H. Walker of Santa Maria shows English singles, pompons, collarettes, anemone flowers dahlia with which he has been winning prizes at Sacramento and at the Santa Barbara Fair. R. & B. Oardens of Bell had a table of flaming flowers. Mrs. Hase of Mill Valley shows pompons and the Hollander Jewell.

Mrs. M. G. McDonald of Bell showed last year's prize on artistic arrangement. John G. Burch of Inglewood, last year an amateur, won second prize. The Advance Dahlia Gardens, W. E. Trowle of San Gabriel, and the Vernon Floral Company have fine displays in which the Vernon heather is used to advantage. Mrs. Buxton of Santa Monica shows 1929 seedlings which are notable.

The show manager is Frank Miller and Fred McNabb is president of the dahlia society.

of the car at Beverly and Western and went home in a taxi. At the time I informed Mrs. Pantages that we would come on over later."

Mrs. Jacobs was very positive and exact in her statement and during the examination gave to the jury the exact route taken by Mrs. Pantages from the beach to the Jacobs home and to the points where she left the automobile. Her testimony is in direct conflict with that given for the prosecution by Harry Lederbrink, who said that he attempted to stop Mrs. Pantages at Beverly and Western when she stalled in traffic and that she was alone and intoxicated at the time. Lederbrink testified that when he offered his assistance Mrs. Pantages refused it.

From Mrs. Edna Taylor, a nurse in the Dickey & Cass Hollywood Hospital, where Mrs. Pantages was first taken, it was learned that Mrs. McDonald came the first of the defense testimony.

Mrs. Taylor told of Mrs. Pantages' condition when she was brought to the hospital. She testified that Mrs. Pantages was not intoxicated and that there was no smell of liquor about her. Her cross-examination was brief.

### HAD CONCUSSION

Dr. MacDonald in his direct testimony, however, interjected a new element into the case when he announced from the witness stand that Mrs. Pantages had suffered from concussion of the brain when he treated her.

"She had a fracture of the nose, a fractured jaw, a slight concussion," declared Dr. MacDonald. "In my opinion she was not intoxicated and I did not smell any liquor on her breath."

For almost a full hour Dep. Dist. Atty. Costello cross-examined the physician and ripped and tore with questions about the concussion of the brain and why he reached the opinion that she had not been drinking.

"On account of the head injuries she could not tell if she was intoxicated or had been drinking," Dr. MacDonald said in answer to one of the prosecutor's questions. "Where there is a concussion a test for intoxication cannot be given. It is impossible to tell where the concussion ends and the intoxication starts." Dr. MacDonald declared in attempting to explain his position. "This patient had sufficient head injuries to produce the case in which I found her." This was another answer made to a searching question by Costello.

### DEFENSE POINT

A battle between counsel with victory resting with the defense was started when Costello attempted to read Dr. MacDonald's statement to the jury. The statement was made by him in a statement to the District Attorney, Steuer, Gilbert and Ford wanted to see the statement and Costello refused to turn it over. At last the court ordered the prosecutor to deliver the document if he wished to use it.

But the defense victory was short because from the statement Costello read the witness a number of questions that went as follows: "Would you state that she was not intoxicated?"

"No I would not state that."

"Did you smell her breath while performing the operation on her nose?"

"Did you give her a test for intoxication?"

"No, I did not."

And there were others along the same line that went on for almost an hour. Some of them read from the statement and some asked by Costello.

Then to climax it all this question was hurled at the doctor:

"MIGHT HAVE BEEN!"

"From all that you know then, doctor, this woman might have been intoxicated when you treated her?" And the answer came: "She might have been. It is possible."

A newspaper cameraman was the only other witness called during the day by the defense. He testified to the position of the wrecked automobiles when he took some photographs now in evidence. By his testimony the machines were placed a little further west and in the street intersection where prosecution witnesses had told of both cars being east of the intersection.

Clash after clash between all of the defense and all of the prosecution lawyers came during the beginning of the defense testimony but most of it ended after Costello had accused Gilbert of "barnstorming" and the reply shot back, "Mr. Costello, I am just trying to make you feel at home." Then Judge Hardy took a hand and everybody sat down.

Three witnesses closed the prosecution case during the morning session. In quick order Jacob H. Pine of 1540 North Harvard Boulevard, Robert S. Dickey of Third and Vermont avenue and Edward Setles, a police officer, went to the stand.

In each case the last three prosecution witnesses retold versions of

## BRIEF ON WAY IN FARE FIGHT

City Completes Arguments in Yellow Line Contest

State Railroad Commission Also Party to Appeal

Supreme Court Will Hear Case October 21, Next

The city's brief in its appeal to the United States Supreme Court against the decision of the Federal District Court allowing the Los Angeles Railway Company to increase its fare to 7 cents was dispatched to the Supreme Court yesterday. It followed by one day the brief of the State Railroad Commission, which has joined with the city in the appeal.

The case will be heard by the Supreme Court October 21, next. Representing the city before the court will be City Attorney Werner and Deputy City Attorney Von Schrader, who wrote the brief submitted yesterday. They will leave for Washington October 10. The Railroad Commission will be represented by its chief counsel, Arthur T. George.

### SIMILAR ARGUMENTS

Essentially the same arguments are presented in the briefs of the city and the Railroad Commission. The attorneys for both appellants agreed that they should not go into the entire matter in the hands of the jury some time in the middle of next week.

The basic contention of the city and the commission is that the 100 franchises from the city under which the street railway now operates are contracts and that the charging of a higher rate of fare than 5-cent maximum specifically included in the terms of ninety-one of the franchises is a violation of contract.

### CITY'S CONTENTION

The city's brief then argues it is immaterial that a rate for public service fixed by a valid contract between a municipal corporation and a public service corporation may be cancellable and that, therefore, the public utility can obtain no relief from the courts.

It is admitted by the city that the street railway might obtain a change of franchise rates by order of the Railroad Commission but it is pointed out that the railway applied to the commission for an advance and was refused.

Anticipating a vigorous contention by the railway that the city had no power to enter into contracts which included the fixing of maximum charges, a considerable portion of the city's brief is devoted to the contention that the city had such power. The District Court ruled against the city on this point.

### DECISION CITED

The city's brief cites a decision of the Supreme Court wherein it was held that the question of whether a contract between a municipal corporation and a public service corporation is valid under the laws of the State where they are located is a question for the State courts to decide.

The city then argues its possession of the right to fix rates before the institution of the Railroad Commission, quoting the State Constitution and statutes and the city charter. It is admitted freely again in this section of the argument that this power is subject to the paramount power of the State to regulate rates, but it is repeated that in the matter at issue the State has not yet exercised this power.

### SILVERWOOD'S STORE VIEWED

(Continued from First Page)

which fast is becoming an area of world wonder in the field of merchandising.

The new Silverwood store, three miles west of Bullock's new store, is two stories high, with a floor space of 60 by 125. The quarters are equipped with every practical and artistic convenience and comfort known to modern architecture and the merchandise and fixtures represent an investment of \$250,000.

The vast, airy rooms on the first, mezzanine and second floors are remarkable for their tasteful simplicity in color, form and general arrangement.

"We believe we have the most beautiful store in America," said Arthur K. Rebar, general manager of Silverwood's store. We have incorporated the best of all that is old together with the most artistic features of all that is new."

The free circus and entertainment tomorrow will last all day, beginning at 9 a.m., and the program will be featured by aerial and acrobatic acts, clowns, trained horses, ponies, dogs, a side show, with wild men and other exciting features, and the serving of hot dogs and ice cream.

Another feature of the store will be airplane exhibitions and lectures on aviation which will be given on the mezzanine floor every day after school hours and on Saturday afternoon.

Notable among features of the new store is the men's lounge on the second floor. In this apartment are to be seen art works of marble and bronze and on the large table will be found magazines from every part of the world.

While the store features apparel for men and boys, women customers will find many articles of interest to them including hosiery, handkerchiefs and costume jewelry.

### RAIL CONDUCTOR BURIED

Funeral services for James T. Wilson, veteran railroad conductor, who died Monday at his home, 238 North Broadway Drive, were conducted at the Little Church of the Flowers yesterday under the auspices of the Elks' lodge. Rev. Herbert Booth Smith officiated. Interment was in Forest Lawn Memorial Park. Mr. Wilson was 71 years of age. He leaves his widow, Mrs. Catherine Quella Wilson, and a brother, Robert H. Wilson.

## VENTURA OPENS COLORFUL FAIR

(Continued from First Page)

fact California highways lined with drooping palms.

Riverside county has used a great mound of cotton surrounded by a roped-in section of the fair grounds on which is displayed a goodly quantity of dates in various stages of maturity.

### AUTOMOBILE SHOW

The rear of the horticultural tent is given over to the automobile show, in which the latest models of the year are on display. The Ventura county agents are displaying the latest and best in motor vehicles.

Another tent 800 feet in length is provided for the poultry and rabbit show. The rear of this tent is taken up with a great display of tractors and farm machinery.

The spacious Ventura county pavilion has been transformed into a palm garden under which are restful seats where women may lounge and where tea is served by native Chinese girls.

The fair was officially opened at 10 o'clock when a gay procession of cowboys formed the nucleus for country and fair officials to the gates. The municipal band of Pomona provided a program of spirited music. A Camarillo, president of the fair association, delivered a short address of welcome.

Shortly after 1 o'clock the racing program was commenced. This is one of the leading features of the fair and is included in each day's program.

The climax of each fair day is the great horse show at night when the best of the county's horsemen and their teams are on display for the much-desired cups and ribbons.

## CIRCUS THRILLS THROGS ANEW

(Continued from First Page)

the grand finale of the human projectile shot from the cannon is a wonder, too. Fred Bradna, equine director, who bosses the performance, and the announcers, led by Clyde Ingals, help to put the thing over with a great flourish.

Two shows are given daily, at 2 p.m. and 8 p.m. with the tent open one hour earlier for the animals and side shows.

### Old City Hall Lot Lease Goes to New Tenant

Because of the failure of the present lessee of the old City Hall site to pay the \$2000 a month rent agreed upon for use of the lot as a parking station, the lease is to be granted to Howard & Nunn, it was decided by the City Council yesterday.

The present lessee is James Lloyd. It was stated in the Council yesterday that he never has paid any rent for his several months' occupancy of the lot. After it was decided to oust him and release the lot, he and two others submitted bids for the new lease yesterday.

His bid was for \$1800 a month but the highest bid, that of Howard & Nunn, was for \$2000 a month, and the Council voted to grant it to the latter.

### Closing of Play Places Opposed

That the school playgrounds, gymnasiums and natatoriums be kept open outside of school hours to permit their use by the children, including Saturdays and holidays, and that the school auditoriums be kept open as community centers and for the use of civic organizations was the text of a resolution passed by the East Los Angeles Commonwealth League on the 4th inst. and presented to the Board of Education yesterday.

The communication was referred by President J. L. Van Norman to the teachers and schools committee and to the superintendent for investigation.

## TURKISH MISSION HERE TO STUDY AIR SERVICE

Seeking statistics on aviation in general and with particular attention to commercial aviation developments in the United States

The visit is in the nature of a return of courtesies to the Curtiss-Wright Corporation, which sent a delegation to Turkey recently, where they were accorded full attention by the Turkish government.

In attendance at the depot as a welcoming committee were Maj. C. C. Mosley, local manager for the Curtiss-Wright interests, and Capt. Harry Collins, assistant. Charles Cooke of the Chamber of Commerce; Jack Maddux and his assistant, Cedric Browne of the Mad-dux Air Lines.

The guests were escorted through the city to the Ambassador by motorcycle officers.

Today will be devoted to visits to the studios of First National, Columbia and Warner Brothers. It was announced that a number of flights will be made over Southern California by the mission in Mad-dux planes and that tomorrow afternoon they will be taken by plane to Agua Caliente for the week-end.

several asserted attempts by Con-ner to cause harm to Truesdale and his daughters, Beatrice and Mabel. Truesdale reported to Captain of Detectives Smith, because of a jealous rage.

On Tuesday, Truesdale recounted, Conner called at 523 North Bronson avenue, in Hollywood, where Beatrice was visiting and threatened her life. As a result of this call she asked her sister to accompany her before she would venture to return home.

Wednesday afternoon, according to Truesdale, Conner appeared at his home armed with a revolver. "He had been drinking," said Truesdale, according to the police report, "and acted like a maniac. I told him to get out and quit molesting my daughter. He drew his pistol and leveled it at me. I leaped at him and prevented him from discharging the weapon by stabbing my thumb under the hammer of the gun. Then I wrenched the gun away from him."

When he threatened to call police Conner fled, Truesdale stated.

Fearing for himself and daughter, Truesdale reported the matter to the police and was referred to the District Attorney's office. Officials there refused to issue a complaint, it was stated, because Truesdale had no witnesses to Conner's asserted assault.

Captain of Detectives Smith and Captain of Police Schofield of the Highland Park Police Station ordered an officer to remain at the Truesdale home all night. Early yesterday morning the night man was relieved by Kelley.

Conner is said to be driving a Chrysler roadster. He is described at 32 years of age, 5 ft. 6 in. in height, 135 pounds in weight, with light brown hair and hazel-blue eyes. A false left leg is said to cause him to limp.

Kelley lives at 1865 North Avenue 53. He is detailed to the morning watch in the Highland Park division.

## FILM TELLS AIR HISTORY

Aviation in All Phases Shown on Screen Before Engineers at Club Gathering

Aviation in all its phases, from motor to giant lighter-than-aircraft, was visualized on a motion-picture screen and by actual demonstration for members of the Engineers' Club last night at the City Club.

How Col. Charles A. Lindbergh power motor which hurries air currents through the tunnel at 200 miles an hour and exerts pressures up to 200 pounds per square foot on airplane wings, were included in Dr. Klein's lecture.

OTHER DEVELOPMENTS. Lieut. Karl Lange, dirigible expert of the Goodyear-Zeppelin Corporation, pointed out that America has contributed the stub mast, used in grounding the Graf Zeppelin on its recent visit here, to dirigible control, and predicted that giant mobile and telescopic mooring masts will be perfected before one of the huge air liners of the Navy, now under construction by Goodyear-Zeppelin at Akron, O., is stationed for service on the Pacific Coast.

Development and improvement of airplane motors to the point where they now weigh less than one and one-half pounds per horsepower as compared to four pounds per horsepower during the World War, was set forth by N. M. Tilley, chief engineer of the Kinner Airplane Motor Company of Glendale.

A picture record of California Institute of Technology's world-known aircraft testing wind tunnel was explained by Dr. A. L. Klein, member of the institute's department of aeronautics. Close-ups and explanations of the 750-horse-

power motor which hurries air currents through the tunnel at 200 miles an hour and exerts pressures up to 200 pounds per square foot on airplane wings, were included in Dr. Klein's lecture.

# Of Interest to Women.

## SOCIETY

**BY JUANA NEAL LEVY**  
Seventy-six new faculty members of the University of Southern California will be guests of honor at the annual faculty reception for which more than 800 invitations have been issued by President and Mrs. Rufus von Klein Smid to be held at their home, 10 Chester Place, next Tuesday evening, at 8 o'clock. As newly appointed vice-president of the university, Dr. Frank C. Taylor will head the receiving line with President von Klein Smid and Vice-President Warren B. Howard.

New members of the faculty in the college of letters, arts and sciences are Dr. Frederick A. Marchant, Dr. Erik M. Erickson, Charles O. Stewart, Dr. William M. Marriott, Lewis Dillon Roberts, Paul W. Jewett, Lawrence M. White, Raymond T. Bye, Allen Buchanan, Edmund Hollander and Dr. P. G. Schiller.

The school of medicine has been augmented by the following new faculty members who will be presented to their colleagues at the reception: Dr. John F. Kessell, Prof. Harry J. Deust, Lawrence P. Brown, Dr. Frederick C. Brown, Dr. Burrell O. Hamilton, Paul W. Smith, Dr. Clinton H. Thomas, Dr. Maurice Vasecher, Ernest M. Hall, Dr. Paul H. McMillan, Clifford A. Harrison, C. Prouty, Miss Edythe Rose and George Hewitt.

The latest additions to the faculty of the college of dentistry include Dr. K. M. Porter, R. K. Lindsay, S. B. Patterson, R. A. Smith, H. A. Winkler, R. W. Pace, C. H. H. Ritter, Alice Mason and A. N. Swanson.

Eleven new faculty members in the school of citizenship and public administration who will be introduced at the faculty reception are James I. Tucker, Dr. John M. Pittenger, Charles H. Diega, Frank P. Lewis, Jr., R. S. Klein Schmidt, J. W. Parker, Henry L. Thompson, W. O. Stindley, George L. Schmutz, Clifford M. Davis and Ray A. Collins.

New representatives of the college of engineering will include John F. Dodge, Gilbert H. Dunstan, Dr. Malcolm Blaisdell, Thomas F. Clendenen, Sidney Dunham and David Wilson. Other new faculty members include Dr. Norman Penion, Dr. Theodore L. Scholts, O. T. Dorcas and Mrs. Faye Adams in the school of education; John S. Bradway and John M. McCormack in the school of law; George M. Carpenter and Mildred M. Bateson, school of architecture; Giles Gilbert and Marjorie Brooks, college of music; Clyde Duval Dabell, Alice Mills and Alta B. Hall, school of speech; Dr. Jane Dale, Miss Elvira Larson, Clarence S. Williams, Edward Swisher, Mrs. Mildred Brown and Miss Jeanie Marker, university college.

Mrs. von Klein Smid will be assisted by a number of faculty women and wives of the deans. Held every year in the beginning of the fall semester, this delightful as well as interesting reception provides an opportunity for the faculty of the university to renew their acquaintance with the board of trustees, members of the administrative staff and head residents of the campus fraternities and fraternities.

## WOMAN RETURNS AFTER CRUISE

### Pacific Islands Visited on Long Trip

(C. Elmore Grove studio) Mrs. Walter Harrison Fisher

**MRS. WALTER HARRISON FISHER** of the Talmadge Apartments has returned to Los Angeles after an extended cruise, when she and her daughter, Mrs. Rachel P. Yerr, and grandson, Richard, sailed aboard the Aorangi, stopping at the Fiji Islands, N. Z. They passed five weeks in Sydney, Australia, and returned to Honolulu and were there for several weeks before coming home. Mrs. Yerr and her small son will be guests of the Fishers this winter, while the lad is attending Page Military Academy.

A number of charmingly arranged affairs will be given in honor of the visitor, who has a host of friends in the Southland.

During her trip, Mrs. Fisher and her daughter visited the Talmadge Apartments in Honolulu, where they were guests of the Fishers. Mrs. Fisher and her daughter, Mrs. Rachel P. Yerr, and grandson, Richard, sailed aboard the Aorangi, stopping at the Fiji Islands, N. Z. They passed five weeks in Sydney, Australia, and returned to Honolulu and were there for several weeks before coming home.

## HEALTH AND DIET ADVICE

### By Dr. Frank Mc Coy

Dr. McCoy will answer personal questions on health and diet, addressed to him each week by the Los Angeles Times. Below are answers to questions for the week beginning Sunday:

**SUNDAY**  
Breakfast: Poached egg on Melba toast. Stewed figs.  
Lunch: Macaroni or spaghetti, boiled and buttered. Head lettuce.  
Dinner: Roast chicken. Cooked asparagus. Small green peas. Salad of minced avocado on shredded lettuce. Apple whip.

**MONDAY**  
Breakfast: French omelet. Genuine whole wheat bread. Stewed prunes.  
Lunch: Baking powder biscuits. String beans. Celery.  
Dinner: Nonstarchy vegetable soup. Broiled steak. Cooked tomatoes. Salad of quartered cucumbers. Stewed raisins.

**TUESDAY**  
Breakfast: Retained breakfast food with cream (no sugar). Pear sauce.  
Lunch: Combination salad of cooked and raw vegetables, such as beets, carrots, peas, cucumbers, celery.  
Dinner: Roast pork or mutton. Baked squash. Salad of tomato stuffed with asparagus tips. Baked apple.

**WEDNESDAY**  
Breakfast: Coddled eggs. Melba toast. Stewed prunes.  
Lunch: 8-ounce glass of orange juice. Baked white fish. Cooked squash. Cooked lettuce.  
Dinner: Stewed tomatoes and cucumbers. No dessert.

**THURSDAY**  
Breakfast: Baked eggs, small piece of broiled ham. Melba toast.  
Lunch: Baked potato. String beans, celery.  
Dinner: Spinach and celery soup. Salisbury steak with buttered mushrooms. Salad of raw spinach leaves. Apricot whip.

**FRIDAY**  
Breakfast: Whole wheat muffins, peanut butter. Stewed prunes.  
Lunch: One or two oranges. Glass of sweet milk.

**QUESTIONS AND ANSWERS**  
Question: J. K. writes:—"I have had the flu now for six months. All the balms, soaps and ointments do not cure or help me, and I am most anxious to have relief from this trouble."  
Answer:—"Every kind of flu which does not come from an outside infection can be cured by dieting. The main change is to regulate your food combinations so as to overcome excess stomach acidity which is the principal cause of any acidosis which produces skin irritation."  
Question:—"I am going to be a mother. What should I eat and drink so that I may have a baby and have plenty of milk?"  
Answer:—"Keep on a well-balanced diet before your baby is born and then afterward if your milk is not sufficient, increase the amount of liquids you use, or drink milk part of the day, both for the nourishment and because of the additional liquid. I will be glad to send you a special article on this subject."  
Question: Reader asks:—"What causes white spots to form on one's nails? Have been told they indicate that something is wrong with the system in a nervous form. Is that right?"  
Answer:—"The person who has white spots on his nails is usually nervous, due to some form of acidosis from which he is suffering, which acidosis interferes with a normal distribution of silica to his growing nails."  
Question: O. K. L. asks:—"What is your opinion of chocolate?"  
Answer:—"Chocolate seems to produce a good deal of biliousness, and of course, requires a large amount of sugar to make it palatable. I never recommend it at any time as a food or drink."

## GUIDING YOUR CHILD

### CASUAL EDUCATION

#### By Mrs. Agnes Lynn

"It's time to feed the chickens and get the eggs. Do you want to come with me?" said Mary to her small city guest.

Four-year-old Peggy had never seen a chicken save under some melancholy and unrecognizable circumstance in a butcher's window, and eggs, as far as she was concerned, originated in cardboard boxes.

The hen house was a marvelous if somewhat frightening place to her.

Then as the handfuls of wheat and cracked corn were thrown to them and they ran hither and thither Peggy plucked up a little courage and helped to scatter the grain.

She followed Mary looking for eggs in the nests which lined the walls. As she gathered them from the straw she cried out delightedly: "Oh, isn't it funny! They're warm!"

The last egg that Peggy found she held carefully in her hand. "I don't want to put it in the basket. I found it and I want it for my supper tonight."

She brought it into the kitchen and watched it being boiled and saw it placed upon her plate. Now or was an egg more appreciatively eaten.

Education has a way of going on under the most casual circumstances. Peggy's experience in the hen house is the kind of thing which modern educators are always trying to provide for children. The country abounds in such opportunities, and even the city affords a good many to the discerning eye.

## CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 5 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cookery in the lecture room of the Southwest Building, 130 South Broadway.

**MAPLE BAVARIAN CREAM**  
One cupful of maple syrup, the yolks of four eggs, one-fourth of a cupful of water, one tablespoonful of gelatin, two cupfuls of whipped cream; place the syrup in a saucepan and allow to reach the scalding point, then pour over the well-beaten egg yolks, return to a double boiler and cook until it will coat a spoon; dissolve the gelatin in the cold water and add to the maple syrup and egg yolk, allow to become cold, add the whipped cream and the beaten egg whites.

**FRENCH LEMON COOKIES**  
One cupful of butter, three cupfuls of sugar, the yolks of four eggs and the whites of four eggs beaten stiff; one teaspoonful of lemon extract, or the rind of one lemon grated; cream butter and the sugar, add the well-beaten egg yolks, fold in the stiffly beaten whites, and stiff dough, adding to the flour two tablespoonsful of baking powder, roll out thin, cut into small cookies and bake in a quick oven until light.

**ITALIAN BEEF TONGUE**  
Boil a beef tongue until tender, plunge into cold water, remove the skin and trim, slice thin, heat four tablespoonsful of butter in a saucepan, add one finely chopped onion and two cloves of garlic chopped.

Primeaux, son of Mr. and Mrs. J. A. Primeaux of South Pasadena, were united in marriage in St. James Episcopal Church of South Pasadena by Rev. C. Hankin Barnes at 3:30 p.m. the 6th inst. Five hundred witnessed the ceremony and the church was decorated with baskets of purple, orchid and pink asters.

The bride, given in marriage by her father, wore ivory satin, designed with long, tight-fitting bodice, long sleeves, full circular skirt trimmed with a yoke of seed pearls and rhinestones. Her tulle veil, caught with orange blossoms, was held in place with a crown of seed pearls and rhinestones and she carried a shower of gardenias, lilies of the valley, orchids and bouvardias.

The bride's mother wore Austrian beauty chiffon gown and Mrs. Primeaux a peach georgette gown, both carrying orchid corsages.

The maid of honor, Mrs. Helena Bestine, in orchid gown, carried satin dress made princess style, and carried butterfly roses, while the bridesmaids wore Misses Pauline Graef, Lucy Glassman and Lola B. Primeaux, in frocks of satin in shades of orchid to deep purple, fashioned alike in princess style, and they carried arm bouquets of Russian roses. The tiny flower girl, Mary Jacqueline Smith, a cousin of the bride, was dressed in pink crepe, peasant

## So important in summer... this deodorizing sanitary protection

**KOTEX**

Avoid all danger of offense in summer! ... this new, deodorizing pad makes it easy to be safe

SUMMER makes certain days particularly trying to dainty women. It is then you learn to really appreciate Kotex!

You learn to depend on Kotex for complete deodorization... to depend on it to save you from all danger of offense to others.

**Special features of Kotex**  
Kotex is carefully designed to avoid all conspicuous bulk. It is rounded and tapered, so that no revealing outline shows, even under summer's filmiest frocks. Kotex completely does away with old-time fuss and laundering. It disposes instantly, without embarrassment.

**Always light and cool**  
Kotex, too, is so wonderfully comfortable, so light and cool and dainty! Its absorbent filler, Cellucotton absorbent wadding, is selected by surgeons in 85% of the country's leading hospitals, because of its amazing power of absorption.

Kotex actually absorbs 16 times its own weight in moisture! So it protects completely without bulk or weight.

## PRACTICAL RECIPES

Buy your household needs when the week is young! Prices are lower then and the goods are fresh and complete.

**LEMON CHIFFON PIE**

D. L. M., Los Angeles, Cal. One and a fourth cups of sugar, one-half cup of flour, one-half teaspoonful of salt, one and one-fourth cups of boiling water, five table-spoonfuls of lemon juice, juice and grated rind of one medium sized orange, three eggs, mix the sugar, flour, and salt, add the boiling water, stirring in slowly, cook in a double boiler for fifteen minutes, add the well beaten egg yolks, lemon juice, grated rind and orange juice, and cook until thick about three minutes, cool, make a meringue of the whites of eggs, to which has been added one teaspoonful of lemon juice, whip one-fourth of the meringue into the custard mixture, turn into a baked pie shell, cover with the remaining meringue and brown in a slow oven.

**LEMON SPONGE**

One tablespoonful of gelatine, one-fourth of a cup of cold water, one cup of boiling water, three-fourths of a cup of sugar, one-fourth of a cup of lemon juice, the whites of three eggs, and one-fourth of a teaspoonful of salt, soak the gelatine in cold water for five minutes, dissolve in the boiling water, add the lemon juice, and grated rind of one lemon, stir well, and when quite thick beat the mixture until frothy, add the stiffly beaten whites of the eggs and continue beating until stiff enough to hold its shape, turn into a wet mold, chill and

serve with a boiled custard, made of the yolks of the eggs.

**BLACK TOP PIE**

M. P. M., Los Angeles, Cal. Think this is the pie you have reference to as near as I can make out, five whole eggs, and the yolks of five eggs, one cupful of sugar, three quarters of a cup of milk, two table-spoonfuls of rum extract, one cup of whipped cream, and one table-spoonful of butter, allow the milk to reach the scalding point, beat the eggs and sugar until thick, and add the scalded milk to the mixture, allow to cool, return to a double boiler, and cook until thick, over a slow fire, it is quite thick enough, add two table-spoonfuls of cornstarch, allow to cool, add the cup of whipped cream, and place the mixture in a baked pie shell, using one cupful more of whipped cream for the top, grate sweet chocolate over the top of the pie and serve.

**CHOW CHOW**

C. C. W., La Canada, Cal. To make the chow chow place in an enamel or earthenware jar, one medium sized head of cabbage finely shredded, four cups of very small cucumbers, and cover with a brine made of one part salt and four parts water, let stand twenty-four hours, boil in separate saucepans, four cups of small onions, one head of cauliflower broken in small pieces, and two cups of string beans, cut in small pieces, when the vegetables are cooked, drain off all of the water, and add to the drained cabbage and cucumbers, place in an enamel kettle three quarts of vinegar, and when it comes to a boil add half a cupful of celery seed, two-thirds of a cup of grated horseradish, one peeled head of garlic chopped fine and three finely chopped green or red peppers, stir until it starts to thicken, then add one cupful of brown sugar, and a paste made of one-half a cupful of olive oil, one cupful of French mustard, one-half an ounce of turmeric, and four table-spoonfuls of cold vinegar, stir smooth, and pour while boiling hot over the mixed vegetables, pack in jars and store in a cool place; will be ready for use in two weeks.

**YOUR BABY AND MINE**

BY MYSTLE NEVER FLORED

Mrs. Mabel Wyman will be glad to answer all questions pertaining to babies and children. She is a mother of four children, and has been a nurse for many years. She will be at the Los Angeles Times on Friday, September 13, 1929, from 2:00 to 4:00 p.m.

**BREAKING THE CHILD'S WILL**

We used to hear a great deal about the child's will, and there are parents today who feel that they have accomplished something when they get instant obedience and the child never shows the slightest spirit of opposition. The time at which the child's developing personality leads him to defy the parent's authority is between 18 months and 3 or 4 years. It always comes as a shock to the parents when little Mary first says: "No, I won't," but it comes to all parents and there is trouble ahead unless the parent handles herself wisely. If she is the type of parent who says firmly, "Well, I'll nip that in the bud, or know the reason why," then it indicates a pitched battle from then on between parent and child. If the child is a weakling the parent will win soon, for the weakling's will is easily broken. He is fearful of punishment and so he gives in. But the child of strong personality, of good mentality, can't be handled that way, and the parent persists in absolute obedience she is doomed to failure. With the small child who is misaged and punished in effort to wipe opposition out of her, the result is a whiny, disagreeable child who cries without reason. The child has no freedom of action, no choice of conduct. Knowing and resenting this but unable to alter it, the child simply cries. No one, not even her mother can prevent her doing that. It is her single free expression. If, instead, the parent says to herself sensibly, "Baby is growing up. I've got to recognize that and take it into account," she will begin to subtly alter her methods. She knows she must still hold the reins and still guide the little pony, but she does so tactfully instead of forcefully. She no longer says, "Now hurry up, it is time to go to bed." But she suggests that Mary take the dolls up and get them ready for bed, or that Mary may like a particular story this particular night about kittens because tomorrow she is going to see some new kittens as soon as she gets up. Mary's mind then is diverted from the bedtime she may have been opposing, and centered on what will happen after she is in bed and tomorrow. When this new phase of children's natural development arrives and one says, "Give them more liberty," it does not mean that they shall run wild, but that they shall have choice of conduct, either of which is suitable for them. Instead of having the feeling that they are being ordered about like automata, they feel that they are becoming independent persons able to make their own decisions. One must learn to avoid commands except when absolutely necessary and to realize that when the child wants so badly to have "his own way," it is significant of a natural, beneficial development. Breaking a child's will and ordering his conduct to suit your convenience and comfort are to crush the very spirit of his growth to independent adulthood.

# A CHUCKLE FOR EVERYBODY

## THE BEASTS OF TARZAN

By Edgar Rice Burroughs

As the chief's canoe rounded a sharp bend in the river, it came suddenly upon the thing he sought. Yelling like mad devils, the savages leaped to their feet and the two canoes had almost touched before the blacks realized the nature of the crew which manned the white man's dugout. Then would they have given all the beads and iron wire they possessed to be safely back in their village.

Scarcely had the two crafts come together than the frightened apes of Akut rose, growling and barking from the bottom of the canoe, and with long hairy arms far outstretched, grasped the menacing spears from the hands of the black warriors. The savages were overcome with terror, but there was nothing to do but fight. Now came the other canoes swarming about Tarzan's craft.

But when they saw the nature of the enemy, all but one turned and paddled swiftly up the river. As that one touched the ape-man's craft, Tarzan spoke a few low words to Gheta and Akut. Before the attacking warriors could draw away, there sprang upon them with a blood-frenzying scream a huge panther, and into the other end of their canoe clambered a great ape.

At one end the panther wrought fearful havoc with his mighty claws, while Akut at the other buried his long sharp fangs into the necks of those who came within his reach, hurling the terror-stricken blacks overboard as he made his way to the center of the canoe. Kavi, the chief, was so busily engaged with the demons that had entered his own craft that he could give the other no assistance.

## SAN MATEO FOUR PLAYS UPLIFTERS

Northern Riders Face Beach City Clubmen Sunday Afternoon

In line with the Uplifters' Club policy this year to present the best obtainable outside low-goal talent in competition on the Coast against their teams on the summer polo field, the San Mateo club has entered into a two-game series with the Uplifters. The game Sunday afternoon will be the first of a two-game series. The game Sunday afternoon will be the first of a two-game series.

Tevis, besides his fame on a polo field, has won considerable distinction as a writer on horses and horsemanship. His books are widely read by horse lovers. Tevis was last seen here in a Midweek high-goal tournament when he played with Tommy Hitchcock and other noted internationalists.

## POMONA END MAY PLAY

Bishop, Following Knee Operation, May Be Ready to Take Place in Line-up During Midseason

Although recently operated upon for a knee injury it is possible that Clarence Bishop, one of the best ends in the Southern California Conference, will be able to take his place on the Pomona College eleven along about midseason.

How far Pomona will get this year depends to a large extent on "Beefy" Heath, the former Sagehen captain who has a great reputation as a line builder. Judy, center, and Dyer, end, are the only letter men returning for line duty, which puts it pretty squarely up to Heath.

## MACK FAVORITE FOR HESS BOUT

Goldie Again is Underdog in Clash Here

Eddie Mack was established as a 10-3 favorite over Goldie Hess yesterday by the pickers. The two clash next Tuesday in a ten-round bout at the Olympic at 135 pounds.

Joe Anderson left Portland for the south last night and is due here Saturday, Jimmy Dougherty, Anderson's manager, will arrive here next Tuesday, according to a long-distance telephone conversation Matchmaker Wad Wadhams had with the south.

## Finger Grip Advocated by Cyril Tolley

As he makes no attempt to overlap, because of his short fingers, he is careful to push the little finger of his right hand against the first finger of his left. Then, as he closes on the club with his right hand, the base of his right completely covers the left thumb and side of the thumb.

This right thumb passes a bit over the shaft and exerts its pressure on the left side, same as does the left thumb on the right side. This pressure of the right hand against the left thumb gives a feeling of snugness to Tolley that enables him to make the two hands work as one.

## BIG SWIM MEET ON SCHEDULE

Far-Western Event Will be Staged in Trio of Local Tanks

The far-western indoor swimming and diving championships will be held in Southern California September 25, 27, with the L. A. A. C. Angeleno Athletic Club, Hollywood Athletic Club and Coast Club, dividing up the three dates.

Swenden will stage the first championship at Hollywood September 25. The second night's program will take place at the L. A. A. C. and the third at the Pacific Coast Club. All the nationally famous stars who took part in the big L. A. A. C. swimfest Wednesday night will be on the program as well as stars from San Francisco, Portland, Seattle, San Diego and every Western city.

## Hagedsted and Colley to Join Pomona Eleven

When Art Colley and Stew Hagedsted, former Sagehen grid stars place their names on the official roster of Pomona College some time next week, Coach Eugene W. Nixon will undoubtedly feel a bit better about the coming season.

Two years ago Hagedsted played on Nixon's undefeated team of 1927, but spent last year in aiding John D. in extracting the liquid gold from his numerous fields. The two boys are great chums and their work together in the oil fields has put them in fine shape.

Baby Sal, the San Bernardino cyclone, will be offered a crack at the winner of tomorrow night's Joe Borola-Barney Ross Junior lightweight clash at the Main Street Athletic Club. Ross, who won easily from Ramon Lugo two weeks ago, is favored to beat Borola.

# Franklin Grid Prospects Bright

## HESS WELCOMES THIRTEEN VETS

Lack of Capable Reserves May Hurt Chances

Panther Piskin Team Has Tough Schedule

Tony Spangler Will Coach Lightweights

BY IRVING ECKHOFF

The best prospects in years, but even at that not much chance of getting back a couple of the favorites.

That's the way Coach Hess sums up the Franklin Panthers' chances for the coming season. Thirteen letter men have returned to do battle for Coach Hess and seven men, which ought to be enough to make the coaches of any cold-blooded football coach's heart.

However, it is the lack of capable reserve material that makes the Panthers' grid outlook a bit gloomy.

Hess has a complete line returning, two ends, Jimmy Thompson and Roger Daley; a pair of tackles, Bob Brennan and Harry Grubbs, and Ed Austin and Carr at the guard positions. Ed Austin and Carr are the lone center-joint men.

The tackles, Brennan and Grubbs, will rank with any in the city, both being over 300 pounds. Ed Austin at guard is a veteran of three years' standing, having made the varsity in his freshman year, three seasons ago. Both Brennan and Grubbs were outstanding players last year. Roger Daley played both guard and tackle last season.

There are three possibilities for quarterback, "Frank" Livers, Frank McDonald and Bob Held all being after the signal-calling job. It looks as if Held has a slight edge on the other two. Jimmy Thompson is slated to hold down the full-back job while Freddy LaDue and Ray Bates will take care of the halfback positions. The above mentioned are letter men.

Franklin has a hard schedule this year, meeting three of the toughest teams in the league right off the bat. The Panthers start off with Lincoln, who has a wonderful chance to take the pennant this year. The following Friday they meet Mosaic, who came out close to the top last season. The L. A. High Rams are their third foe. The Rams will be out for blood this season because of the upset Coach Hess' boys handed them last year. With the L. A. team favored to win, the Panthers are favored to win by three touchdowns in the first game.

Hollywood is another eleven who will be out after Franklin scalps this year. Last season the Panthers routed Vic Kelly's aggregation and walked off with a 5-0 victory, which was their only league triumph of the year. In the last game of the year, the Panthers were held to a scoreless tie by Coach Jim Purcell's fighting Jefferson eleven.

Tony Spangler, former star Oxy end and quarter-back, will have charge of the lightweight team this year. Ralph Jellison, who handled the babes last season, has gone to Broadway High in Glendale at head of the athletic department.

**SANTA ANA POLY AND JAYSEE WORK OUT**

**SANTA ANA, Sept. 12**—Two teams were lined up on the greenward at the Poly High School and the first practice meeting players held yesterday under the scrutiny of Coach Gerald (Tex) Oliver.

While it is yet too early to over-speculate who Coach Oliver will use on his team, until all candidates have reported, and weeks of practice have been held, it was of interest to note how the Poly members lined up his players for the drill on plays.

In the backfield were Al Robin, Jack Fredrick, Jimmy Hall and Lloyd Nunam, veteran players.

The line for the offensive team included Capt. Bruce Tarver at center, Marvin Johnston and John Jamison at guards, Glenn Hartman and Hoffmaster at tackles, and Gilbert Melinger and Maxon Stull, ends.

Seven new candidates reported.

## Eighty-two Teams Want Jaysee Game

When Coach A. J. Schuetzner of L.A.J.C. went to open his mail yesterday morning a huge pile of letters confronted him. After digging through them he found notes from eighty-two Pacific Coast teams asking for games with the Jaysee eleven.

The Washington State freshmen were the farthest away. However, the Angels will do no traveling this season as not much money has been appropriated for their use this year.

Officials expected an enrollment of 800, while about 1800 applied for admission. So far eighty-six men have signed up with Coach Schuetzner and Fleming for football. To date no games have actually been scheduled but Schuetzner expects the entire list to be made up by next week.

Yesterday for the Santa Ana High School team. They are James Darnell, backfield; Harold Long and John Jackson, guards; Francis Hall, tackle; Ray Harvey, center; and Lawrence Lewis and Clifford Marshall, linebacks.

Of the new players, Darnell, speedster and quarterback, who won the Junior Olympic championship when he was at Lathrop two years ago as all-around athlete, has considerable promise. Long will be remembered as basketball player on the varsity last year. He has had two years' experience at Vermilion Academy in Illinois.

Coach Oliver early in the afternoon had the players toasting the ball about, getting accustomed to handling the pigskin.

**Caster Tops Pitchers in Coast League**

George Jasper Caster, recent addition to the Mission pitching staff from the San Bernardino club of the defunct California State League, has won five games in six starts, and so tops the Pacific Coast pitching leaders.

Among the more regulars, however, Hollis Thurston, veteran left-hander, leads with twenty victories and eight defeats for a .714 percentage. Ed Sacchi tops the fourth hurlers with a similar average gained in ten victories and seven defeats. Frank Schellenberg is Hollywood's best with twenty-three victories and ten defeats. Schellenberg leads the league in number of games won, followed by Austin Walsh, who has twenty-one victories.

## BRUIN, TROJAN TEAMS REPORT

Rival Grid Elevens Slated to Turn Out Tomorrow

Two Practice Sessions for S.C. Athletes

Westwood Field Scene of U.C.L.A. Workouts

Tomorrow's the long-awaited day for grid athletes of Southern California and U.C.L.A. Howard Jones has named two workouts, one at 9 a.m. and the other at 3 p.m. This afternoon the Bruins will draw their uniforms and romp around the field a bit while the Trojans will draw their uniforms and romp around the field a bit.

Spaulding has nineteen returning letter men as well as a number of promising prospect men and candidates to choose from, and it is likely that some transfers will be added to strengthen the squad.

At present the probable lineup for the season are: Eben Ben and Norman Duncan, fullbacks; Cliff Simpson, Ted Dennis, Howard Roberts, Andy Greenman, Halvey Snyder, Jerry Ransom, quarters; Bob Rasmussen, Hal Bishop, Ted Duffy, Jimmy Adkins, ends; Coach George Brown, Ray Jackson, Harvey Nelson, and Ed Tandy, tackles; Gene Noble, Maurice Goodstein, Al Gibson, Jack Rasmussen, guards; and Marlon French and Leonard Wellendorf, centers.

In the two weeks of practice preceding the Southern California game, Spaulding must work these men into a well-coordinated unit which is no small job, considering that none of the men has had any practice since last spring. The Bruins schedule this season calls for their first three games within the first three weeks, which is a hard bill for any football team to fill.

Differing from last season, all of the Bruins encounters but one will be played at home. The locals make one trip to Eugene to meet the University of Oregon, while last year they traveled close to 2000 miles in four trips north.

Unofficial passing and kicking practice by a number of the men has been going on this week, but Spaulding will not be on hand to coach them until tomorrow.

## SHIPPING BUND SKIES CLEARER

Luckenbach Line Returns to Conference Fold

Joins Westbound Inspection and Weighing Group

Bureau Head Announces Plan to Extend Service

BY WALDO DRAKE

The intercoastal freight situation was measurably strengthened yesterday by action of the United States Intercoastal Conference in its westbound weighing and inspection bureau and in announcing its plan to extend its service to serve all Pacific Coast and Pacific Coast-Quilt commerce.

**PEACE ASSURED**

The announcement, made at the port yesterday by Morgan Hutton, chief inspector here for the weighing and inspection bureau, means that the Luckenbach Line, which for months has seriously threatened the existence of the United States Intercoastal Conference, will be drawn from the freight bundle, and returned peacefully to the fold.

Mr. Hutton, to handle the increased business, has appointed two new inspectors to the local staff, W. A. Finney, formerly with the Quaker Line, and A. J. Flint, who has been with the Luckenbach organization. Mr. Hutton has two other inspectors, J. C. Robertson and J. L. Purdin, who have been with the bureau on May 15, last.

**BUREAU ACTIVE**

"We have weighed and reloaded 300,000 tons of westbound intercoastal freight at this port in the last five months and so pleased have shippers, consignees and operators been with results the service will be increased to both coastwise and gulf service," said Mr. Hutton.

He stated that the weighing and inspection bureau guarantees a square deal to every shipper and consignee; this confidence means that the bureau has reached the point where the United States Intercoastal Conference can standardize its tariff and practices.

"As a further important step, the conference has decided to pass all rate corrections on to the weighing and inspection bureau for investigation and adjustment."

**CONTRACT LET FOR HUGE TANKER TRIO**

Construction of three turbo-electric tankers, to cost \$2,000,000 each and to exceed all other petroleum carriers afloat in design and equipment, will be started soon at the Standard Oil Company of New York.

The New York yard, indicated that the Standard Oil Company of New York, according to advice received yesterday from New York.
